IN YOUR SALON.

Maletti presents the new Heaven wash unit for Shirodara treatment, which is the result of an accurate analysis of the involved technologies: ergonomic horizontal position for maximum muscle relaxation, perfect alignment of the vertebrae and increased oxygen flow in the circulatory system.

“The exclusive wash unit for the Shirodara”

HEAVEN IN YOUR SALON

“The supine position is undoubtedly the best for resting, although the use of a mattress of the best material on the market is not enough! To ensure complete muscle relaxation, the spinal column must remain in a natural position. For example, when treating patients with postural problems, in order to respect the curvature arcs of the back, a specific pillow must necessarily be used, for the alignment of the C1/C7/T11 vertebrae. Not using pillows or, on the contrary, using improperly positioned pillows can in the long run cause chronic postural problems. Another overlooked fact is that resting in a correct supine position also relaxes the muscles of the rib cage, which promotes the flow of oxygen.”

BEARD STEAMER

SPECIAL OFFER

Maletti has cooperated with the Medicine and Surgery Department of the University of Perugia in an experimental project where the results attested the benefit of the steam application on hair and beard. The steam therapy is crucial to the effectiveness of hair and beard care products, as it allows deeper penetration and improves their health and softness. As the human body is mainly made up of water, good hydration is essential for the health and function of hair follicles, hair and epidermal tissue.

STEAMOON

BARBER EXPERIENCE

"The application of steam has shown a positive impact on the morphological properties of hair or even on damaged hair in a major way. In fact, the steam deeply moisturizes the hair, scalp, skin and the underlying tissue."

prof. Cataldo Arcuri
