Micropeel handpiece

Micropeel treatment ensures the maximum active ingredient absorption of the subsequently applied bdr® serums. A specially shaped disk equipped with synthetic tips that performs at high frequency with a slight pressure to the skin.

The frictional lifting movement of micropeel carefully removes the, through previous acid treatment, loosened and dead skin cells.

Profipeel handpiece

Use Profipeel S/M for dermabrasion and treating pigment disorders. Specially shaped abrasive crowns remove the from Re-action partially dissolved, dead skin cells gently and absolutely injury free.

The rotating disc leads to a abrasive effect on the skin's surface. Pressure sensitive springs built into the profipeel handpiece automatically prevent skin injury. Profipeel attachments yield back into the sheath, and guarantee maximum treatment safety.

Stimulation XL handpiece

XL's special pad gently stimulates the top layers of the skin, creating thousands of micro openings. This accelerates the regeneration process, and reduces the skin's diffusion barrier, allowing bdr's highly-concentrated active ingredients to penetrate the epidermis more quickly and in greater quantities.

XL stimulation has the following benefits:

- Stimulation of microcirculation
- Reactivation of all skin functions
- Stimulation of the skin's own repair system
- Improved cell regeneration and cell division
- Stimulation of the skin's own collagen and elastin production

Stimulation XS handpiece

Intensive treatment for targeted areas of skin, stimulating regeneration and tissue tightening. Reduces wrinkles and improves the appearance of scars (except keloid scars).

Ventilator handpiece

Soothes and cools during the acid treatment. We recommend fanning the face at a distance of approximately 20 cm.

Tip: Allow your customer to experience the maximum comfort and cooling effect by directly applying the fan during the treatment herself.

Light Concept

72 LEDs with a wavelength from 400-450 nm

bdr® Calming Light

Light Concept

The highly efficient results of blue Calming Light treatment are scientifically proven. Light-emitting diodes of a specific wavelength have an antibacterial (e.g. destruction of the porphyrin bacteria in acne) and inflammation-inhibiting effect.

The release of serotonin, the "happiness hormone", can be increased with a mood elevating effect. The cell-vitalization is increased and the skin appears smoother and more even.

A calming effect can be expected for extremely dry and flaky skin.

The Calming Light is already included in the bdr® EXPERT system!

Specials

- acne and acne caused inflammation
- calming and positive effect on skin edema
- soothes irritated skin
- decongestant
- regulate the production of endogenous Serotonin

FAQ Light Concept

What are the advantages?

How do treatments with light work?

Our whole life depends on light – the light of the sun ! We need sunlight to enable the essential metabolism processes.

The positive impacts are e.g. general well-being and the production of Vitamin D. A lack of sunlight leads to several illnesses and can cause a depressive mood.

Nonetheless sunlight has even negative influences, such as sunburn, over-hornification, or accelerated skin aging. Important is the length of the wave and its intensity.

Treatments, using red light are quite common, but there is a variety of much more effective options. The general working area is "the blue light". With a wavelength of about 482nm, skin problems are possible to treat in a very effective way. Acne and inflammations are handled with a lasting effect because this specific adjustment allows the deduction of the responsible bacteria on the skin and their further expansion.

Irritated and nervous skin, that need to regenerate, shall be treated with blue light by using this spectrum. The redness will be minimized and balanced.

It is important to avoid jumbling this with "Light-Concept" treatments, using colored light. Here, special color filters are used and no specific wavelengths.

Dermatologists, Pharmacies and carefully tested institutes are working with the successfully approved "Light Concept" like the bdr® Calming Light.

STEP 1

Cleansing

Re-move cleanser

Re-move is a creamy cleansing milk rich in aloe vera protects the skin's acid mantle, is relaxing, soothing and healing.

Recommended for all skin types. Especially recommended for mature, dry and combination skin.

Tip: also suitable as a gentle eye make-up remover!

Art. 116001

Re-move PH pure harmony cleanser

Re-move PH is a gentle cleansing milk. Micronized silver and SEBOCLEAR® DB normalises the sebum production of sebaceous glands, is mattifying and balancing. It relaxes and normalises irritated skin and effectively prevents impurities and irritation.

Recommended for inflammable, blemished skin as well as sensitive, stressed skin.

Tip: to use all its potential effect, do not wash off product immediately instead leave on skin for 5-10 minutes.

STEP 2

Preparation

Re-cover
 pH control

The skin's bodyguard. Re-cover stabilizes the skin's acidic protective layer prior to Re-action natural or deep treatments and slowly lowers the pH value of the skin. This is especially important at the beginning of a treatment or when using the acids.

Art. 111101
200ml Cabin

Re-turn
 reaction neutralizer

Re-turn immediately neutralizes Re-action natural and deep, giving you the ability to time your treatment precisely.

More sensitive areas can thus be taken into account individually.

Art. 111151
200ml Cabin

Re-action E
 enzymatic & mechanical peeling

A dual effect, in-depth cleansing peeling: the combination of enzyme and mechanical peeling (fine Bamboo powder and fine, organic argan shell powder) gently but effectively removes dead skin cells.

Recommended for all skin types, especially suitable for pale, stressed skin.

Essential: after usage pay attention to adequate sun protection, we recommend using bdr® Re-flect.

Art. 114400.1
1 pc Retail

Re-action Tonic Professional
 skin preparation essence

Active ingredient booster for an even and pure complexion. Our highly concentrated Re-action Tonic Professional prepares skin ideally for following bdr® serums and increases the natural moisture-binding capacity of the skin. Re-action Tonic intensively minimises pores and stimulates, energises, and smoothens skin.

Skin preparation for all skin types prior to subsequent skincare.

STEP 2

Preparation

NEW

Re-action control

PHA gluconic acid exfoliation essence

The PHA (polyhydroxy acid) exfoliating fluid gently removes skin debris and is especially suitable for hypersensitive skin, that cannot tolerate AHA/BHA or other exfoliators.

At the same time, it works as a water magnet, attracting moisture and transporting it deeper into the skin for a visible and noticeable moisture boost.

We recommend Re-action control, in addition to its function as an exfoliating fluid, also as a hydrating serum (rinse off, no leave-on!) for skin that needs extra moisturization.

Suitable for any skin type, especially recommended for very sensitive skin up to couperose and rosacea – specialized task: hydration & stabilization

Essential: after usage pay attention to adequate sun protection, we recommend using bdr® Re-flect.

NEW

Re-action PH

AHA mandelic & succinic acid exfoliation essence

15% mandelic acid combined with 5% succinic acid is what makes the AHA fruit acid peeling Re-action PH a must-have for very impure, oily skin. The natural antibiotic effect of mandelic acid effectively fights skin impurities. The anti-inflammatory effect of succinic acid supports the skin renewal process..

For very oily, blemished skin – specialized task: clarifying & mattifying the skin complexion

Essential: after usage pay attention to adequate sun protection, we recommend using bdr® Re-flect.

Re-action natural

AHA citric & lactic acid exfoliation essence

This fruit acid peeling is a sophisticated combination of 10% lactic and citric acid in total. It gently removes dead skin cells as well as superficial skin impurities and stimulates cell regeneration for a juvenile fresh glow.

Suitable for any skin type –
specialized task: quick beautifier & refinement of the complexion

Essential: after usage pay attention to adequate sun protection, we recommend using bdr® Re-flect.

Re-action deep

AHA glycolic acid exfoliation essence

Our fruit acid Re-action deep peeling contains 10% micro molecule glycolic acid that gently removes dead skin cells, activates the skin regeneration and stimulates cell. Being a classic among fruit acids, it is very well tolerated and acts as a natural precursor for subsequent care.

Suitable for any skin type –
specialized task: smoothing & skin rebuilding

Essential: after usage pay attention to adequate sun protection, we recommend using bdr® Re-flect.

STEP 3

Hydration

NEW

Re-charge sun
 UV protection moisturizer serum

The completely new hyaluronic serum convinces with its triple effect: sustainable hydration, sun protection and photoaging repair complex! Large and small molecular hyaluronic acid and betaine provide the skin with essential moisture. While protecting the skin against UV-A and B rays for several hours with ecologically safe sunscreen filters. The included probiotic Repair Complex improves cellular repair mechanisms, strengthens the skin's own protective functions and counteracts premature skin aging. Due to the oil-free formulation, the serum is extremely light, absorbs immediately, does not whiten at all and leaves nothing but cool, velvety freshness on the skin without the usually „sweating effect“ of conventional sun care products. The serum is used in combination with the usual final care, e.g., Re-vital or Re-vital PH.

Recommended for every skin type.

Re-charge
 moisturizer serum

Hence the combination of micro- and macromolecule hyaluronic acid, the gentle fluid thoroughly moisturises the epidermis and dermis. Our moisturizing serum has an immediately visible and long-lasting effect!

Recommended for every skin type, especially for dry, sensitive skin

Tip: ideal first aid for sun irritated skin!

Re-charge N
 regenerating moisturizer serum

Through the additional lifting effect, this hyaluronic serum is especially recommended for demanding skin as a 12h moisturizing serum. HYDRACTIN® regenerates and multiplies cells. PHYTODERMINA LIFTING visibly and long-lastingly improves skin.

Recommended for dry, fine (atrophic), wrinkled and mature skin.

Tip: With increasing skin age, the delicate skin on the neck and décolleté requires special focus. For optimal protection and care of this sensitive area, combine Re-charge N with Contour Neck Serum!

STEP 4

Focus Care

Re-lax 3

multifunctional serum

The all-in-one serum Re-lax 3 excels with a regenerative protection barrier, that identifies any skin need. The mix of biotechnological active ingredients slow down skin aging and reduce signs of aging – the dermaceutical alternative to Botox!

Suitable for any skin type, especially recommended for fine, wrinkled skin as well as couperose and rosacea

Re-fine

structuring serum

The ultra-light, high-concentrate care fluid minimises pores and regulates the muscle tonus – for an even complexion. The green micro-algae care complex strengthens the architecture of the dermal - epidermal connections and fortifies the tissue. In addition, bacterial growth is regulated, inflammation is reduced and cell renewal is improved.

Suitable for any skin type, especially recommended for irritated or impure skin and skin with large pores.

Contour neck

defining fluid

Liposomal encapsulated glacier water – rich in mineral nutrients and micronutrients – and edelweiss extract, has a demonstrable shaping effect and provides gentle in-depth skin care and visible smoothing.

Contour Neck protects your skin from free radicals and other negative environmental factors.

Suitable for all skin types, especially recommended for weak, wrinkled skin on the neck and décolleté.

Tip: The combination with the bdr® Stretch Lift Mask provides an impressive V-lifting effect!

STEP 4

Focus Care

Stretch Lift Mask

The bdr® Stretch Lift mask is the ultimate v-lifting mask. Thanks to our design the jawline is optically lifted by stretching the lower part of the mask and by pulling the strap behind your ears. Used active ingredients reduce redness and soothes sensitive skin.

Suitable for any skin type, especially recommended for couperose and rosacea.

Tip: for a particularly lifted chin and cheeks use combined with our bdr® Contour Neck serum ... it may be addictive!

Art. 130040

10 Masks

incl. display

Bio Cell Mask

The ultra-thin Bio Cell silk mask with Matrixyl and hyaluronic acid is soaked in a cocktail of phytosubstances that provides notably firm skin. Your immediate benefits: Stressed skin is soothed and hydrated to the maximum, fine lines are smoothed and pores are refined.

Suitable for any skin type, first aid for stressed, sensitive, dry and atrophic skin .

Art. 130045

10 Masks

incl. display

Laser Effect Mask

The bio cellulose mask ('second skin') contains unique active ingredient compounds, unifying firming, and moisturising ingredients – as an especially powerful skin care and to achieve an instantly visible 24h WOW effect. By stimulating the skin's natural collagen formation, the skin is regenerated and firmed. Experience rejuvenated glow and vitality and visibly smoothens wrinkles.

Ultimate mask to get ready for an event –skin so smooth it seems photoshopped.

Art. 130050

4 Masks = 1VE

Re-fresh Gel Mask

Using the bdr® gel mask ensures your very own long-lasting at home beauty parlor feeling. Acts cooling and relaxing, while highly effective active ingredients are being absorbed by skin. The coenzyme Q10 prevents skin aging and in combination with the cell booster EGF evens out and rejuvenates skin

Suitable for any skin type.

Tip: for an additional cryo-effect and freshness, cool mask before application on hot summer days.

We specifically offer a size 'small' as first aid for irritated, e.g., after plucking eyebrows or upper lip waxing!

STEP 5

Protection

Re-vital

essential cream

Re-vital is a highly concentrated professional 12h care compound. It increases the skin's protective function, supports the hydrolipid barrier and provides a relaxed and rejuvenated complexion. Collagen synthesis is stimulated, which improves the elasticity and tone of the skin for a silky-smooth, rosy fresh skin appearance.

For normal, very dry and sensitive skin.

Re-vital PH

pure harmony cream

A silky, soft fluid with micronized silver evens any skin tone for seamless, clear, and balanced skin. Skin's own repair mechanisms are supported and the damaged skin barrier is rebuilt. Seboclear® DB actively supports sebum regulation, has an anti-inflammatory and antibacterial effect.

For extremely sensitive, irritated or inflamed skin.

Re-construct

nourishing cream complex

Re-construct offers uncompromising care for your demanding skin under tough circumstances (e.g., cold weather and dry air). Enriched with precious herbal oil lipids, it protects the skin, stimulates collagen and elastin production and thus ensures an even, wrinkle-reduced complexion. The skin's own repair processes are actively stimulated, while early skin aging processes are delayed.

Recommended for very dry, needy and sensitive skin.

Tip: Re-lax 3 combined with Re-construct is the excellent power duo for a healthy and long-lastingly smooth complexion!

Re-set 4D eye serum

The cell renewing focus care Re-set 4D for sensitive eye areas, soothes swelling and dark under eye circles and additionally moisturises skin long-lastingly. Re-set 4D evens and lifts skin and can even conceal periorbital wrinkles!

Recommended for the sensitive eye area, also suitable to reduce lip wrinkles.

Protect hydrating skin mist

Highly concentrated hyaluronic acid and a newly developed anti-pollution agent are united in this serum, dispensed as finely-drizzled mist. Apply 2-3 dosage both after washing and several times during the day to enhance the skin and to refresh.

Protect has a hydrating and moisture-binding effect, it protects and soothes the skin with an immediate effect. Ectoin as an „anti-pollution“ active ingredient protects against harmful environmental stress such as UV, screen and cell phone radiation and air pollution.

Suitable for any type of skin.

Beta-Carotin skin essentials

The bdr® SKIN ESSENTIALS beta carotene capsules combine a well thought-out combination of micronutrients as „sun protection from the inside“. Beta-carotene as well as the carotenoids zeaxanthin and lycopene have an antioxidant effect, as do vitamins B3, A, C and E, and are thus suitable for counteracting the radical formation triggered by UV radiation. Selenium supports this, zinc has a positive effect on cell metabolism and can also promote the regeneration of sun-damaged skin.

Calcium, which is additionally contained in the bdr® SKIN ESSENTIALS beta-carotene capsules, plays a central role in the maintenance and stabilization of the cell membrane, among other things, is thus important for the defense function of the skin and can block histamine, which is responsible for the typical itching in sun allergies.

Please note: Consumption of beta carotene cannot replace sun protection by a product with suitable light protection!

Hand Creme EP even & perfect hand care

Give your hands a rejuvenated, smooth glow in an even skin tone with the EVEN & PERFECT hand cream.

The innovative formula of this cream unifies greatly smoothing and several whitening active ingredient compounds. Those penetrate deeper layers of the skin, reduce the melanin synthesis and reduce hyperpigmentation.

Complemented with vitamins, moisturisers and precious herbal lipids, this hand cream thoroughly cares and moisturises nails and especially sensitive and dry cuticles. The cream has a heavenly soft texture, is absorbed quickly and is non-greasy.

Suitable for any type of skin.
