Composed Experiences Elements

'Fire' is recommended for those seeking relief from muscle tension. It is also designed to activate and tap into the vastness of passion to ignite your power from within, and boost your energy levels. The element of 'Fire' as experienced via the Gharieni Aurasens is one of stimulation and invigoration. 'Fire', as it is heat, light and ultimately transformation. Gharieni Aurasens Experience Lounger replicates the element through unique and understated sound, accompanied by pleasurable vibrations in varying intensities moving under you in pendulum like movements to achieve balance, restoration and the gateway for transformation. 'Fire' is a powerful journey that leaves you feeling enlivened and energised and has the ability to transport you to another time and place through sound and vibration.

'Water' is recommended for those seeking deep relaxation and emotional healing. Experience the caress of gentle waves, the trickle of raindrops down your back, the incomparable healing properties of the ocean. Water cleanses, clears and always finds its way to source. 'Water' is the sensation of bubbles rising to meet your limbs, arms, and torso at varying intensities to simulate a feeling of immersion from the safe haven of the lounger. Waves lap at your skin while a gentle gong reverberates focusing your mind on the present. Achieve tranquility with the soothing sound of water in all its forms and the accompanied sense of multilayered touch. 'Water' is simply serenity itself.

'Earth' is recommended for the achievement of increased balance and physical energy. 'Earth' is an opportunity to ground yourself and helps to relieve mental stress and center you with an increased sense of embodiment. Percussive music combines with rumbling sensations that cascade down the body like tumbling stones, this program is composed to ignite various parts of the body simultaneously with differing effect. Vibrations are the very building blocks of the universe, 'Earth' emulates creation and expansion through vibrating movement with a deep intensity, for an entire body experience. 'Earth' is a deeply pleasurable and enlightening experience.

'Air' is recommended for those seeking mental clarity and physical restoration. Embrace the lightness of being at one with 'air'. Experience yourself as a blade of grass, or a leaf on a branch moving in the breeze. 'Air' provides a lightness of being that is unachievable in daily life. The mental properties associated with 'Air' will inspire your imagination and creativity whilst the physical sensations stimulate the entire body with particular attention to the acupuncture pressure points in the lower back and limbs. 'Air' is a journey through landscapes of mountains, valleys, deserts and oceans – go there with the Gharieni RLX Experience lounger.
