For the fourth time Gharieni Group is Brand Official of Forbes Travel Guide

About Forbes Travel Guide

Forbes Travel Guide is the only independent, global rating system for luxury hotels, restaurants and spas. Started as Mobil Travel Guide in 1958, the company created the first Five-Star rating system in the United States. Today, Forbes Travel Guide's incognito inspectors travel the world, evaluating properties based on up

to 900 rigorous, objective standards. The company's annual Star Ratings, reviews and daily travel stories help discerning travelers select the world's best luxury experiences.

Read more about Forbes Travel Guide: www.forbestravelguide.com

The Gharieni Group is the only spa supplier to have been selected by the prestigious international Forbes Travel Guide as one of its "Brand Officials" - for the fourth year in a row.

This is because Gharieni's world-class products and excellent customer service in the spa and wellness sector meet the high benchmarks and standards that Forbes Travel Guide uses to evaluate spas, luxury hotels and restaurants. This great recognition reflects our engagement to provide our customers with outstanding service, highest comfort and first-class design.

From initial concept to installation, Gharieni strives to provide clients with a memorable and immersive treatment experience by incorporating multi-sensory components and extensive customisation options into its products. The designation by Forbes Travel Guide will reinforce our goal to pay utmost attention to the design details and differentiation of our equipment.

"We are pleased to name the Gharieni Group as the Official Spa & Wellness Equipment Manufacturer of Forbes Travel Guide," said Filip Boyen, CEO of Forbes Travel Guide. "Gharieni's team of experts oversees every step of design and customizes spa tables, treatment beds and more based on client need. The company, which has more than 25 years in the business, puts guest experience at the forefront of its innovative products."

The Gharieni Group

With 30 years of experience, Gharieni Group GmbH is one of the leading international manufacturers of high-quality spa tables, treatment tables, and equipment for the areas of spa, wellness, cosmetics, and foot care/podiatry.

Our tables and device furnishings, as well as our cosmetic and medical equipment, are sold on all continents in nearly 100 countries worldwide. Luxury hotels as well as high-end spas and resorts around the globe rely on our "Made in Germany" products.

First-class material, outstanding quality, the best functionality, modern design, and exclusive innovations, coupled with the flexibility to respond quickly to customer requirements: that is our company's maxim.

We do not just think of ourselves as a manufacturer of equipment. We are in fact concerned with creating very special well-

ness experiences. Thus we have both the end customer as well therapists in mind. We want to offer end customers unique relaxation and treatment experiences and therapists absolutely comfortable, ergonomic working with our products.

When developing our products, we think it's important to "think outside the box." Our in-house development department works continuously with specialists from other professions. This brain-pool isn't just the birthplace of new ideas. The expertise and innovations of other industry branches are also profitably incorporated here, such as in the fields of medicine and technology. In addition, designers with their expert knowledge are available for visually and functionally convincing implementation.

Our vision is simple: We want to offer you as our customer nothing less than the best possible equipment for unforgettable moments.

Certified Quality

for Gharieni treatment tables
and treatment units

"Made in Germany" production

In order to always live up to the "Made by Gharieni" brand, the standard "quality without compromise" applies in our company. This also includes guaranteed quality, because only this offers customers both transparency and security. In order to provide you with clear facts about the proof of production and to show that social responsibility as well as consumer interests are very important to us, we have put ourselves through a costly certification procedure by TÜV NORD and since early 2012 it's "official." In accordance with the TÜV NORD test criteria, our products in the areas of treatment tables and treatment units may be awarded the seal "Made in Germany!"

Quality management
in accordance with ISO 13485

Of course, our manufacturing and administration are also subject to constant quality control. Comprehensive quality management of business processes has been in existence for over ten years and includes ISO 13485 certifications. As a customer, this guarantees you both product quality and excellent service, a combination that can hardly be found elsewhere!

Testimonials

“ *It is the combination of an exclusive, elegant ambience, combined with tailor-made treatments and also staff who are passionate about what they do that makes the Onda Spa stand out. The Gharieni treatment beds play a major role in this. Thanks to the wide range of settings, the heat function and also the quality of the materials used, our guests experience enormous comfort when lying down. At the same time, our staff also have the possibility to individually adjust the couch to their needs.*

Stefan Margesin, Director Quellenhof Luxury Resorts

“ *For many years, we have shared a passion for outstanding quality, technical innovation and absolutely unique spa experiences with Gharieni. We are just as enthusiastic about the professional, cooperative and always personal support as we are about the constant effort to find the best individual solution for our spa projects together with us.*

Fatima Diagana, Founder of Diagana Spa Design

“ *I chose Gharieni beds because quality was of utmost importance to me and my clients. Our spa guests spend their entire treatment on a treatment bed. It is important they are comfortable (including our therapists!) Gharieni has a fabulous range of beds – they're all great! It depends on the spa, the concept and the treatment menu offering.*

Sonal Uberoi, Owner & Founding Director of Spa Balance

"Cloud or water lounger?"

Every time my clients make themselves comfortable on one of our Gharieni spa tables, there's a, "Wow, this is beautiful, I'll never get up from here again. Gorgeous!"

You can see that wow, that smile in their eyes as they lie down on the wellness couch. We at REVIDERM skinmedics Berlin have a choice between our soft treatment bed with cloud feeling or the water spa table. Both adapt perfectly to the body and make you feel like you're floating. At the latest, when I activate the integrated heating function, my customers don't want to get up anymore. My clients love the Gharieni loungers and I love them too.

Bettina Greger, REVIDERM skinmedics berlin

We have custom-made Gharieni beds that feature our signature tarnished gold palette and have curvatures that are very characteristic of the spa design. We also have a Quartz bed, which is ideal for our various energy treatments, including our signature mental free one. We also use it for acupuncture. Guests find all our Gharieni beds extremely comfortable.

Marina Efraimoglou, Founder of Euphoria Retreat

We appreciate having a partner like Gharieni who shares this vision for bringing innovation and creativity into the spa experience. We have now placed the Gharieni Quartz Bed into three locations: Kuala Lumpur, Doha and Beijing. The nice thing about this treatment is that it is not trying to reinvent an entirely new spa experience, but rather enhances the spa treatments that our guests already enjoy. The heated quartz crystals and the unique features of the bed amplifies the positive effects of our therapeutic treatments.

Jeremy McCarthy, Group Director of Spa and Wellness, Mandarin Oriental

Treatment Beds Options

Soft Upholstery

In addition to the standard upholstery, tables with this symbol can also be equipped with a significantly thicker, very soft cushioning. Depending on the type of table, this soft upholstery is available with both a PU and synthetic leather cover. The extra-soft upholstery provides an even higher degree of lying comfort, in particular for longer treatment sessions.

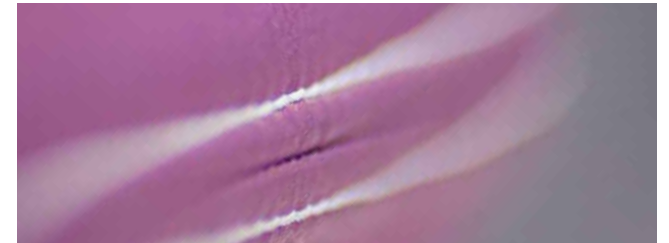

Electrical Armrests

For even more comfort, the armrests - as well as the height, the back, leg, and foot section - can be fitted with actuators for electrical adjustment. In addition to direct control via pushbuttons on the armrests themselves, their position can be conveniently saved using the memory functions. This can bring the entire table into the preprogrammed position with the push of a button.

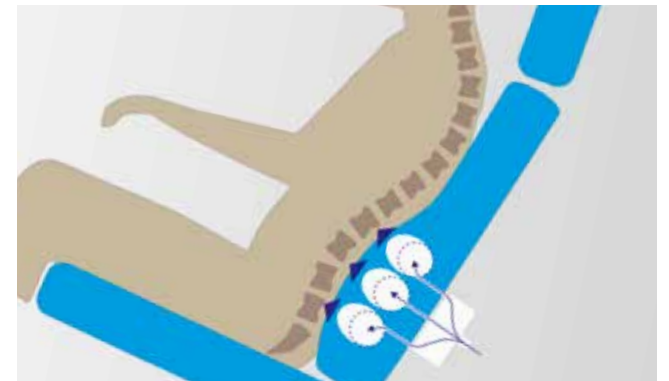

Vibro-Wellness

Vibro-Wellness is a pleasantly massaging vibration system. Ten different vibration motors in the upholstery can be controlled individually via a manual switch. The vibrations work on shoulder (back part), seat, and calves.

Electrical Triple-Airback®

Many of our spa tables and a few of our cosmetics models can be equipped with an electrically-controlled Triple-Airback®. This lordosis support system is divided into three individually controllable zones and perfectly adapts the cushion in the lower back area to the physical needs of your customers. Airback® is particularly appreciated during longer treatment sessions or by people with back problems.

Smart-Thermo Heating System

The intelligent Smart-Thermo heating system is integrated into the upholstery of the table and works with modern microprocessor technology. During the start-up phase, it heats with full power to achieve a comfortable temperature on the surface as soon as possible. Then, it is kept constant until the safety switch automatically turns off the heating after a predefined time. The variable parameters can be set via a programming sequence, which is initiated by a specific key combination. The Smart-Thermo heating system works with DC and is therefore almost free from electrosmog.

Logo embroidery

Treatment beds with this symbol have the option of having your logo embroidered into the upholstery or the neck rest. Only possible with synthetic leather upholstery.

(Multi-)Color upholstery

For the table models with this symbol, two or three colors can be selected from our various trendy colors and combined in a multi-color upholstery. You can find our color charts with the current collection on page 19 of the catalog.

Dual Headrest

Spa tables with this symbol can be equipped with the new, unique dual headrest. With this version, the face cradles can be swapped between a classic o-shaped and a softer horn-shaped insert.

Multifunctional Headrest

The special headrest holder allows a variety of individual settings thanks to its double-joint system, which can not be achieved with a normal headrest. In conjunction with the separately available head sections, this makes almost every treatment in the head area possible. The following attachments are available:

Crescent headrest

This headrest made of soft, washable PU, is ideal for cosmetic treatments, because the areas of the throat, neck, and shoulders are completely free and can thus be treated comfortably. At the same time, the customer's head is held in a comfortable and stable fashion. Also ideal for permanent makeup and foot care/podiatry!

U-shaped headrest

With washable synthetic leather, soft upholstery. Both headrests can only be used in conjunction with the multifunctional mounting. Ideal for back massages!

Crescent headrest

U-shaped headrest

Accessories for multifunctional headrest

Synthetic leather cover for crescent headrest, Art. 48005

10 single-use covers for crescent headrest, Art. 75236

Terrycloth cover for U-headrest, Art. 45018

Table Options

XL Extension

This clever alternative to the conventional headrest allows individual adaptation to each customer: Simply remove the standard headrest and replace it with the XL Extension. This way both slimmer and wider individuals can be treated in a fashion that is ergonomically best for them. This is particularly useful in the massage position because the XL Extension serves as a support surface for the arms. The XL Extension can of course also be adjusted by simply pulling it out. For the Lina, SLXP and SPL treatment beds, the XL Extension is also available with a face cradle! (Not available with soft upholstery!)

Color-XL Extension

The XL extension can of course also come in a color from our current collection, as can the table itself. You can find our color charts at page 19.

Color Basic

Color casing

A treatment bed with this symbol is also available with the base, in addition to the standard white, in titanium-colored casing..

Casing in
titanium

White standard
Casing

Special coating of the metal parts

A special coating of the metal parts in RAL colors is possible in models with this symbol. The colors black-brown, white, and titanium (RAL 9007) are included in the table price.

Spa Ambience Light

Present your spa table in the proper light! This symbol indicates tables with hidden LED bar at the base. The indirect lighting creates an atmospheric ambience. With most tables you can choose from eight different light colors as well as an automatic color change at the push of a button.

Wood Decor

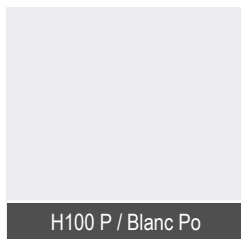

Most of our spa tables are available standard in wenge-pattern or white. For tables with this symbol, you can also select your own favorite decor and before you know it, your table will be a perfect fit for your space! Ask for our current decor palette or visit our website at:

www.gharieni.de/farbpalette-holzdecors

Gharieni standard decors

R800V / Wengé

H100 P / Blanc Po

R651S / Erable Gris C

R660S / Gris Céramique

A150N / Beton

Rotonde

The Rotonde function enables treatment beds to be rotated to the left or right a total 330°. Due to this rotation, the customer can be easily put into the ideal position during treatment. By means of a side lever, the desired position of the table can be determined and also released again. 360° rotation is possible with our hydraulic models. Here the Rotonde function is included for technical reasons.

Castors

Additional castors

Treatment beds with this symbol can be equipped with braked castors. This makes it possible to easily move the table.

Electrically retractable castors

Instead of the mechanical castor mechanism, our spa tables with this symbol are also available with electrically retractable castors. These are controlled via the table's manual switch. That means: Mobility at the push of a button; it doesn't get any easier!

Table Options

Foot Switch

Depending on the table model, foot switches with different functions can be used.

For example, on the MO1, MLW F1, and SPL all actuators and memory positions can be programmed and accessed with the memory foot switch.

Models such as the MLW or MLK use a footswitch to control the basic functions.

Foot switch with memory function

Foot switch for basic functions

IR Remote Control

For table models with this symbol, a wireless infrared remote control is available. This allows the table positions to be retrieved even at a greater distance, wherein the functions correspond to the wired manual switch.

Memory Remote Control

These tables can be optionally equipped with a memory manual switch, which allows up to four or eight individual positions to be stored. A simple manual switch to operate the basic functions is included with the equipment by default.

Aroma Therapy

Enveloped by pleasant scents during treatment - with the Aroma Therapy option you can turn your treatment into a wellness experience for all the senses.

Depending on the table model, you can release aromas from one or three integrated fragrance chambers at the push of a button. The fragrances can be exchanged as desired.

Multimedia

Multimedia sound system

The sound experience for your table! The built-in audio interface offers a modern interface between many playback devices and your spa table. With the speaker integrated into the table, customers can relax to their own favorite music. At the touch of a button, you can choose between targeted playback on the head area or the entire room.

Connection options: Bluetooth, SD card, USB, AUX, and iPhone.

Audio-Relax-Headrest

Speakers integrated invisibly into the headrest guarantee a pleasantly relaxing sound experience with maximum comfort. The supplied MP3 player is attached to the outside of the upholstery so that it is easy to use at any time. Around 50 minutes of GEMA free relaxation music have already been loaded onto it. The player can also be reloaded via USB connection.

Pedicure Chairs

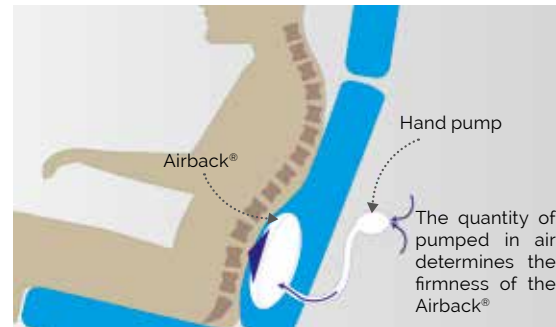

Our pedicure chairs are functional and flexible. The seats are versatile and adjustable and can be controlled by hand switch. Depending on the bed model, up to eight positions can be saved via memory function. The quality actuators from Linak have the "Spline" safety feature, which prevents the danger of crushing on moving parts. For non-actuator-driven table parts, Stabilus pneumatic springs provide easy adjustment without much effort.

The construction of the chairs was designed taking ergonomic aspects into account. Numerous elaborate details, such as the optional Rotonde turning function, make the job easier. Pull-out head and foot sections provide comfort to customers of all body types.

A particular highlight is the Airback®, a lumbar support system whose adjustment is controlled by air pressure via a hand pump.

Airback® comes standard in all pedicure chairs.

Our treatment beds always come equipped with a white Gharieni synthetic leather upholstery. Here you can choose from a large number of colors in addition to the standard equipment.

These can be found in the rear flap of the catalog. Choose your favorite from the Gharieni color chart or from the exclusive Ferrari Stamskin top collection! On some bed models, you can put together your own personalized bed from up to three different colors. The casing is made from robust, easy-to-clean, and colorfast plastic. It is available on almost all models in addition to the standard white in titanium.

The options table will show you which equipment options you have that can be found on the corresponding beds. The individual options are then page 14 explained from there. You can find an extensive list of accessories at the end of each bed section.

Lina Select Podo Series

Gharieni Lina Select Series

Slim, elegant design, maximum comfort and variability. – Our Gharieni Lina Select Podo series is the ultimate for the pedicure! Because the innovative Lina's program is "Select," which combines optimal working and table comfort as well as individual versatility.

You can thus choose from the following versions of the one-piece upholstery cover with memory foam:

- Standard – the perfect "bottom layer" for massages
- Soft – for even more comfort, even with time-consuming treatments

Particularly practical: On all models, the armrests for massage treatments feature double-sided upholstery and can be folded down. In addition, the head and foot sections can be pulled out and removed. And of course you can adjust the height, inclination, back, and leg sections electrically and store up to four positions. In addition, the bed can be equipped with the upholstery-warming Smart-Thermo heating system. All Gharieni Lina Select models are also available as versions with single leg section.

Lina Select Podo Alu

The Gharieni Lina Select Podo Alu features a sophisticated designer aluminum base with upholstery or wood applications.

Features:

- Aluminum-clad base
- With side wood or synthetic leather applications
- Pull-out and removable head and foot sections
- 5-actuator version: height, seat inclination, back and leg sections electrically adjustable using hand switch
- 2-actuator version: height and seat inclination electrically adjustable by foot switch, back and leg sections by gas spring
- Equipped with memory option, up to eight reclining positions can be stored with 5-actuator model
- Fold-down armrests upholstered on both sides
- Vertically adjustable foot section
- Upholstery with a memory foam layer
- Upholstery sewn into one piece
- "Airback" lordosis support system integrated into the upholstery (see page 20)

- Bed surface length: max. 202 cm
- Width without/with armrests: 62/80 cm
- (Recommended) lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

Lina Select Podo Alu
with soft upholstery

Gharieni Lina Select Podo Wood

Equipped with the same features as the other Gharieni Lina Select models, the Gharieni Lina Select Wood has a delicate, yet stable base. The foot is available in one of our numerous wood decors. This allows the bed to be perfectly adapted to your interior design – giving your workspace a particular bit of elegance.

Features:

- Delicate foot with wood decor in wenge or white
- Additional decors optionally available
- Pull-out and removable head and foot sections
- 5-actuator version: height, seat inclination, back and leg sections electrically adjustable using hand switch
- 2-actuator version: height and seat inclination electrically adjustable by foot switch, back and leg sections by gas spring
- equipped with memory option, up to eight reclining positions can be stored with 5-actuator model
- Fold-down armrests upholstered on both sides
- Vertically adjustable foot section
- Upholstery with a memory foam layer
- Upholstery sewn into one piece
- "Airback" lordosis support system integrated into the upholstery (see page 20)

Gharieni Lina Select Podo Static

With its one-pillar technology and solid floor installation, the Gharieni Lina Select Static looks particularly elegant. At the same time it gives you practical legroom with maximum stability. In addition, this model has the same features as the "Wood" and "Alu."

Features:

- Bolted to the floor for maximum stability and legroom
- Four-actuator
- Pull-out and removable head and foot sections
- 5-actuator version: height, seat inclination, back and leg sections electrically adjustable using hand switch
- 2-actuator version: height and seat inclination electrically adjustable by foot switch, back and leg sections by gas spring
- Equipped with memory option, up to eight reclining positions can be stored with 5-actuator model
- Fold-down armrests upholstered on both sides
- Vertically adjustable foot section

- Width without/with armrests: 62/80 cm
- (Recommended) lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

Lina Select Podo Series

Extraordinarily variable

All of the Gharieni Lina Select series models are extraordinarily versatile. The height is adjustable from 54-96 cm and the head and foot sections can each be pulled out by 10 cm. The backrest

can be set up to 70° and the seat can be tilted by 25°. In addition, the leg rests can be tilted down by 75°. And for massage treatments, the double-upholstered armrests can be folded down.

High-end application

The sides surfaces of the foot of the Gharieni Lina Select Alu feature the same synthetic leather as the bed upholstery. Optionally, however, it is also possible to choose an elegant wood decor.

Usable on both sides

Particularly practical: On all Gharieni Lina Select models, the armrests feature double-sided upholstery and can be folded down. This allows them to be used for prone massage treatments.

Lightweight, elegant & stable

The foot of the Gharieni Lina Select Wood looks elegant, but at the same time it is extremely stable. With a wood decor of your choice, the bed can be perfectly adapted to the ambience of your workspace.

Dentalax neck rest

Indispensable for a pleasant treatment: the Dentalax neck rest. It supports the position of the neck and the head and thus ensures maximum comfort.

601 Podo Series

Gharieni 601 Podo

Comfort, stability and practical handling are the main features of this double lifting column supported combination table. Whether cosmetic treatments, make-up, haircare, massages, pedicures or manicures, the Gharieni 601 Podo always performs well. The multifunctional, removable head and arm rests make it one of our most variable treatment tables.

Features:

- Double lifting column technology for extreme loads
- Fully electrically adjustable
- Upholstery of the treatment bed available in three widths: 75 cm (small), 80 cm (medium-small) and 85 cm (medium)
- Upholstery available in two thicknesses: standard and soft
- Three different headrests possible:
 1. Dual headrest with interchangeable face cradles
 2. U-shaped face cradle
 3. Standard headrest with face cradle
- Fold-away head rest for free access to the head and neck (e.g. for hair wash)
- Thermal heatable surface to keep clients cozy and comfortable.
- Swiveling, detachable side armrests for easy access
- Laterally swiveling and lowerable arm support at the head section for effective massages
- Can be operated via hand or foot switch
- Four preset and two freely storable memory positions
- 30 minutes automatic operation safety lock
- Mounting for magnifying lamps
- Mountings for manicure bowls under the lateral armrests
- Available in many different finishes and fully customizable to any décor.
- Also available as High Performance version with approx. 60% more lifting force and 25% higher speed

- Height: approx. 59 cm - 99 cm (Standard upholstery)
- Length: ca. 183 cm - 203 cm
- Width (without armrests): 75/80/85cm
- Lifting capacity: 250 kg/400 kg (High Performance)
- Load capacity of the table surface: 300 kg / 450 kg (High Performance)

601 Podo Series

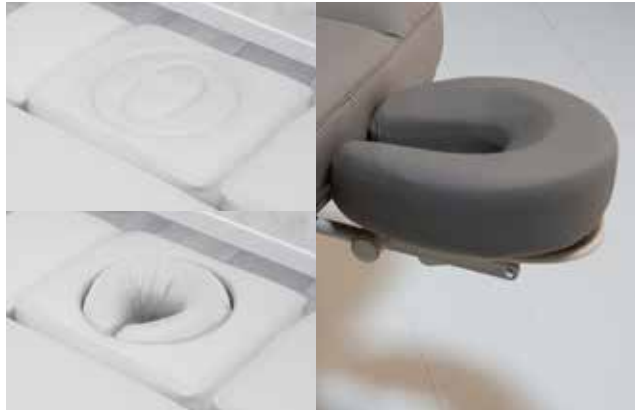

Practical & versatile

In terms of adjustability, versatility and ergonomics, the 601 meets the highest demands. The headrest can be tilted by $-90^{\circ}/+10^{\circ}$ and extended by up to 15 cm. Two lifting columns allow the height to be electrically adjusted from 59-99 cm, the back and foot sections

can be adjusted by 70° and 91° respectively, and the armrests can be swiveled back by 180° cm. The lying surface can be tilted by $\pm 25^{\circ}$ and extended by approx. 10 cm with the adjustable foot section.

Three different headrests

In addition to the standard headrest, the 601 can be equipped with two other variants: the Dual, with an exchangeable round or crescent-shaped face cradle or U-shaped headrest

Adjustable armrests

For optimal adaptation to the customer, the armrests can be moved outwards. Thus, the 601 offers even more comfort for every body type..

SPL Neo Podo Series

Gharieni SPL Neo Podo Series

If you are looking for a solid treatment bed, our "Gharieni SPL Neo Podo" and "Gharieni SPL Neo Podo Soft" are just right for you. With its three or five actuators, the two bed models can be adjusted as quickly as you want: From starting position to the classic treatment position, to the massage position, you can save up to eight different settings and retrieve them simply by pressing a button.

With the "Standard" and "Soft" upholstery versions, the Gharieni SPL Neo Podo offers different degrees of firmness especially for your treatments. Fold-down armrests as well as a lower bed access height make it easier for shorter customers to step up. At the same time, the pull-out headrest and footrest offer taller people optimal comfort. The seat surface rotates thanks to the optional Rotonde function. This gives you even more flexibility when working. You can choose the color of the bed upholstery – for the best look to match the ambience of your workspace – from our large PU and synthetic leather collection. The SPL is also available as a Podo version.

Features:

- 5-actuator version: height, seat inclination, back and leg sections electrically adjustable by hand control
- 3-actuator version: height, seat inclination and backrest electrically adjustable by hand control, leg sections adjustable by gas spring
- Fold-down armrests
- Pull-out headrest and footrest
- "Airback" lordosis support system integrated into the upholstery (see page 20)
- Spline safety actuators to avoid the danger of crushing
- Optional Rotonde seat surface rotating function
- Bed surface available with Standard, XL and Soft upholstery
- Upholstery made from PU or synthetic leather
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Multicolor upholstery also possible
- Base in white or titanium

- Height: approx. 63-100 cm
- Max. working height at the heel: approx. 142 cm
- Bed surface length: approx. 142-198 cm
- Width without/with armrests: 62/80 cm
- (Recommended) lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

	Foot switch to control the basic functions	---

Accessories (see also page 64)

Terrycloth (white, macchiato, or choco)	---
Dentalax neck rest	---
Manicure bowl Holder	---
Footrest	---

Rotonde function

This feature allows the seat to be turned left or right by up to 330°. By means of the side-mounted locking it can be easily fixed in any position.

Headrest with XL extension

The adjustable and retractable XL extensions is a support surface for the arms, especially for prone body massages.

Manicure bowl

As with many other Gharieni treatment beds, the SPL also allows the installation of a detachable manicure bowl on the armrest (Exception: Soft upholstery).

Footrest

This practical chrome-plated footrest protects the plastic casing of the base from mechanical wear and tear and dirt during head-side treatments.

PLS Series

Gharieni PLS Series

With the pedicure couch Gharieni PLS we offer an optimum of individuality and function. Equip your couch, for example, with an entry and exit aid, seat depth adjustment and many other technical features. Numerous options also offer an individual design; and you can also choose from these three options for the upholstery:

XP: stitched upholstery with inclinable headrest

Comfort: seamless surfaces with inclinable headrest

Basic: seamless surfaces with a straight back

Features:

- Two actuators for height and tilt adjustment
- Back section adjustable to horizontal position via Stabilus gas spring
- Leg sections adjustable and extendable by gas spring
- low entry position of down to 46 cm
- Armrests made of grey PU, can be swivelled to the rear
- Basic model: white upholstery, white shell and seat width of 49 cm
- Base optionally available in titanium colour
- Head section inclinable for XP and Comfort
- Adjustable by foot switch as standard

- Height: approx. 47 cm-89 cm (with entry aid)
- Max. working height at the heel: approx. 130 cm
- Length of lying surface: max. 200 cm
- Width without/with armrests: 49 / 68 cm
- Lifting capacity: 200 kg
- Load capacity of the seat: 250 kg

PLS Comfort

2-actuator, incl. foot switch

PLS XP

2-actuator, incl. foot switch

PLS Basic

2-actuator, incl. foot switch

PLS Series

Exceptionally flexible

The models of the Gharieni PLS series convince by their extraordinary variability. The height is adjustable from 49.5 to 84 cm and the leg rests can be extended by approx. 25 cm. With the optional foot rests, the leg section can be extended to approx.

77.5 cm. The backrest can be raised by 70° and has an inclinable headrest. The leg sections can be turned outwards to make it easier to get on, while the seat can optionally be tilted forwards and the armrests swivelled backwards.

Extra long leg section

Due to the adjustable lower leg pads and the optional foot rests, the leg sections can be extended to a length of approx. 77.5 cm. This guarantees the best comfort for all body sizes.

Easy access

The swivelling leg sections and armrests as well as the seat that can be lowered at the front (entry aid, included in the optional memory package) make it easier to take a seat on the Gharieni PLS.

Variable seat

Thanks to the manually adjustable seat surface, the seat depth can be perfectly adjusted in four steps from 49 to 51 cm to suit the anatomical characteristics of your customers.

Collecting tray

The optional collecting tray can be fixed to the leg section by means of a special holder, thus enabling practical, hygienic working.

PLS special options

Wider seat upholstery: Medium: 57 cm (not for Basic)	,-
Armrest with standard artificial leather instead of PU	,-
Armrest with Ferrari artificial leather instead of PU	,-

Hydraulic Podo Series

Gharieni Hydraulic Models

Without actuators, but with total comfort: Our hydraulic models offer almost everything their siblings with actuators can. In the case of the Gharieni PLS Podo and SLXP Podo Hydraulic, the height, seat angle, backrest, and leg rests can be adjusted using a pneumatic spring without much effort. The armrests can be swiveled backward for easier starting positions for customers; and the upholstery is available in many colors.

Features:

PLS Podo Hydraulic

- Height, seat inclination, back, and leg rests adjustable via pneumatic spring
- Armrests fold backwards
- Seat rotates 360°
- Synthetic leather comfort upholstery
- Standard upholstery color: White. Other colors from our color collection for an additional charge

- Height: approx. 59-79 cm
- Max. working height at the heel: approx. 120 cm
- Length of lying surface: max. 195 cm
- Width without/with armrests: 49 / 69 cm
- Lifting capacity: 300 kg
- Load capacity of the seat: 300 kg

SLXP Podo Hydraulic

- Height, seat inclination, back, and leg rests adjustable via pneumatic spring
- Armrests fold backwards
- Pull-out foot and head sections
- Seat rotates 360°
- "Airback" lordosis support system
- Full-length ergonomic synthetic leather upholstery
- Standard upholstery color: White. Other colors from our color collection for an additional charge

- Height: approx. 64-83 cm
- Max. working height at the heel: approx. 120 cm
- Length of lying surface: approx. 144-203 cm
- Width without/with armrests: 62 / 83 cm
- Lifting capacity: 300 kg
- Load capacity of the seat: 300 kg

MLX Limber Podo Series

Gharieni MLX Limber Podo

The Gharieni MLX Limber Podo's numerous adjustment options provide unique flexibility - for a new dimension in your treatments.

Four different model variants (see "Spa, Beauty & Wellness" catalogue), each available with or without storage space, offer the ideal equipment for every requirement.

With the Gharieni MLX Limber Podo, the foot rests can be swivelled to the side, which makes working on the feet extremely easy. The oval-shaped lying surface and the extremely narrow base provide better access to the leg, head and neck areas. Up to six motors allow extreme positions and make the Limber a multifunctional couch with unmatched flexibility.

The optional storage space in the couch base allows practical storage of work accessories and equipment.

Features:

- Height, inclination, head, back, leg, and foot section are electrically adjustable
- Up to eight pre-stored positions can be called up at the push of a button
- Lowerable armrests
- Armrests swivel horizontally
- Inclination head section with face cradle
- Trendelenburg feature
- Locking feature
- With PU comfort upholstery in two thicknesses or synthetic leather upholstery
- Standard upholstery color: White. Other colors from our color collections for additional charge
- Base in white or wenge, optional in other decors
- Doors made of Corian®
- Depending on the model with generous storage space in the base, for example for up to two medium-sized Hot Cabis

- Height: approx. 63-98 cm
- Length: approx. 200 cm
- Width: max. approx. 85 cm
- Lifting capacity: 300 kg
- Load capacity of lying surface: 350 kg

PediSpa Mobile

- Footspa on castors

MLX Limber Podo

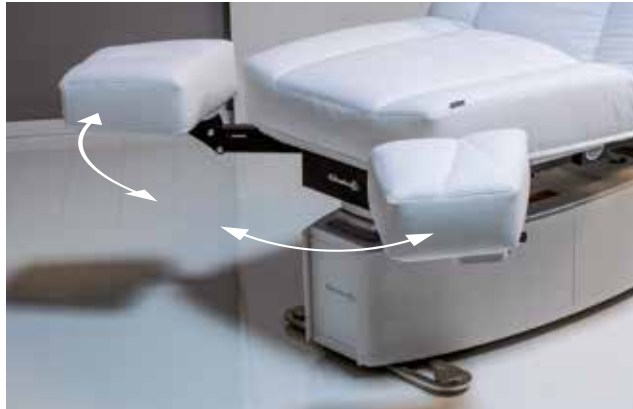

All-rounder

The Limber Podo is extremely versatile. In addition to the complete functions of a high-class spa table, the Podo version offers laterally swiveling and lowerable footrests. These allow, in addi-

tion to classic foot treatments, the use of our matching mobile PediSpa tub. This way your customers are well taken care of!

Side swiveling footrests

Thanks to the horizontally swivelling foot rests, you have free access to your feet during foot treatment.

Mobile PediSpa

With the rollable "PediSpa Mobile" you can pamper the feet of your customers on the Limber Podo. The tub offers a height-adjustable footrest and exchangeable inlays.

Gharieni SPLmed Series

The Gharieni SPLmed was specially developed for use in medical rooms and is a Class 1 medical device according to Directive 93/42/EEC and EC Directive 2007/47.

With its four drives, the treatment bed model can be adjusted particularly quickly as desired: From the entry position to the classic treatment position to the massage position, you can save up to eight different settings and call them up simply at the touch of a button.

Tiltable armrests and a low step-in height make it easier for smaller customers to get in. In addition, the extendable headrest and footrest offer optimum lying comfort for larger persons. The seat can be swivelled with the optional Rotonde function. This gives you even more flexibility when working. You can choose the colour of the upholstery from our large imitation leather collection to create the right "look" for the ambience of your rooms.

Features:

- Four particularly fast drives
- Height, inclination, back and leg area electrically adjustable
- Foldable armrests
- Extendable headrest and footrest
- Airback® lumbar support system integrated in the upholstery (see page 20)
- Spline safety drives to reduce the risk of crushing
- Optional rotating function of seat "Rotonde"
- Upholstery made of imitation leather
- Standard upholstery colour: white. Other colours from our colour collection for an extra charge.
- Multicoloured upholstery also possible
- Base in white or optional in titanium

- Height: approx. 59-100 cm
- Length: approx. 142-198 cm
- Width without/with armrests: 62/80 cm
- Lifting capacity: 200 kg
- Load capacity of lying surface: 250 kg

SPLmed

4-actuator (one-piece foot section)

5-actuator (split foot section)

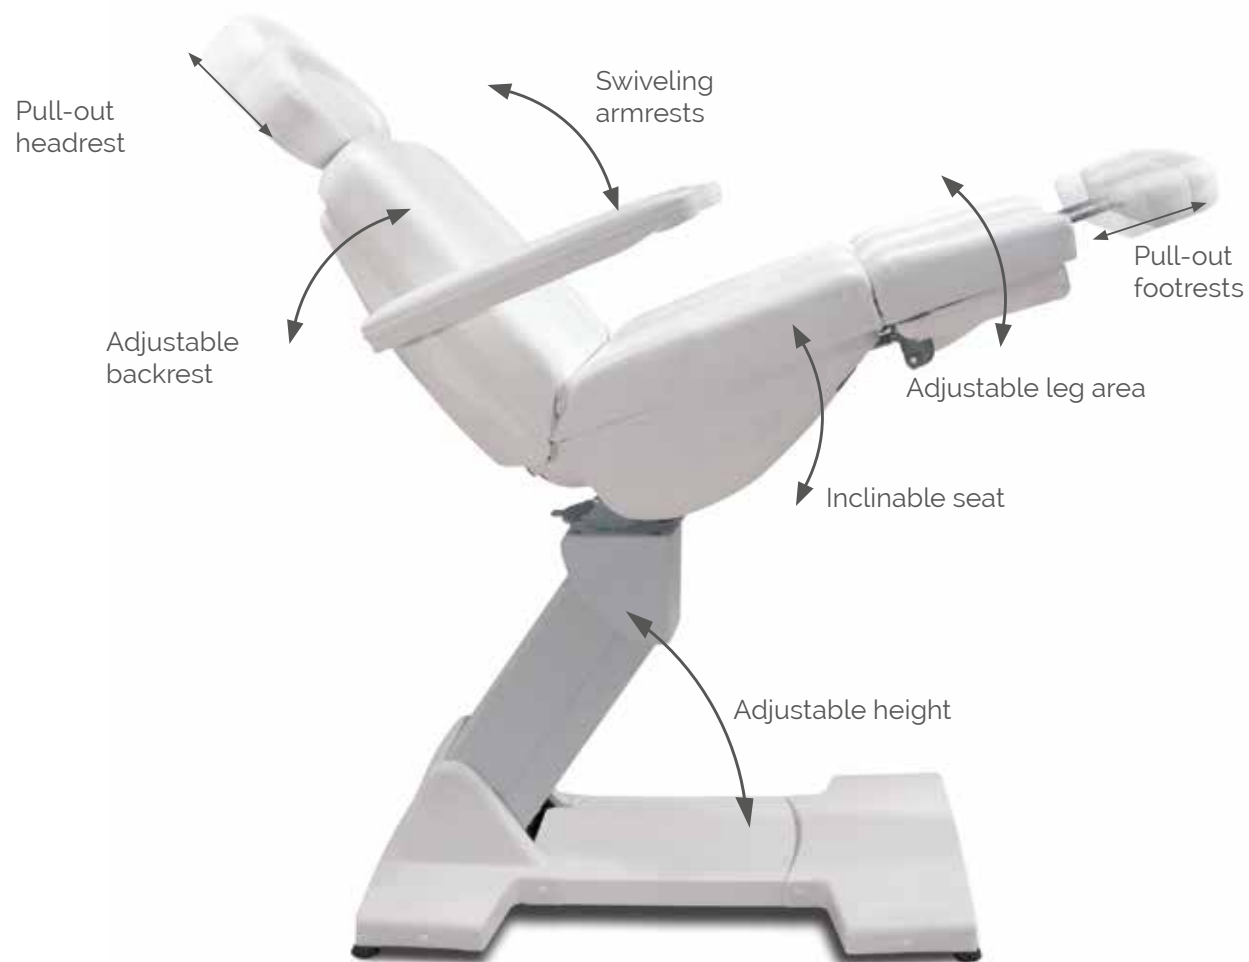

SPLmed with one-piece foot section

SPLmed with split foot section

SPLmed Series

For all treatments

The SPL and SPL Soft can be perfectly positioned for your cosmetic treatments. So you can adjust the chair height to 63-100 cm, set the backrest to 70°, tilt the seat by 25°, and adjust the leg

range from 0 to -90°. Headrest and footrest can be extended by 10 cm and the armrests can be swiveled backwards.

Rotonde function

This feature allows the seat to be turned left or right by up to 330°. By means of the side-mounted locking it can be easily fixed in any position.

Headrest with XL extension

The adjustable and retractable XL extensions is a support surface for the arms, especially for prone body massages.

Manicure bowl

As with many other Gharieni treatment beds, the SPL also allows the installation of a detachable manicure bowl on the armrest (Exception: Soft upholstery).

Footrest

This practical chrome-plated footrest protects the plastic casing of the base from mechanical wear and tear and dirt during head-side treatments.

701

Gharieni 701

Comfort, stability and practical handling are the main features of this double lifting column-supported combination table. The multifunctional, removable head and arm sections as well as various medically relevant attachments, such as thigh supports or infusion stands, make it one of our most variable treatment tables. Completed by the disinfectable upholstery, the Gharieni 701 can be used for numerous medical applications.

Features:

- Double lifting column technology for extreme loads
- Fully electrically adjustable
- Upholstery of the treatment bed available in three widths: 75 cm (small), 80 cm (medium-small) and 85 cm (medium)
- Upholstery available in two thicknesses: standard and soft
- Three different headrests possible:
 1. Dual headrest with interchangeable face cradles
 2. U-shaped face cradle
 3. Standard headrest with face cradle
- Fold-away head rest for free access to the head and neck (e.g. for hair wash)
- Thermal heatable surface to keep clients cozy and comfortable.
- Swiveling, detachable side armrests for easy access
- Laterally swiveling and lowerable arm support at the head section for effective massages
- Can be operated via hand or foot switch
- Four preset and two freely storable memory positions
- 30 minutes automatic operation safety lock
- Mounting for magnifying lamps
- Optional tray with stainless steel holders.
- Optional with infusion stand or thigh supports
- Available in many different finishes and fully customizable to any décor.
- with one-piece or split foot section

- Height: approx. 59 cm - 99 cm (Standard upholstery)
- Length: ca. 183 cm - 203 cm
- Width (without armrests): 75/80/85cm
- Lifting capacity: 250 kg/400 kg (High Performance)
- Load capacity of the table surface: 300 kg / 450 kg (High Performance)

SLR MD

Gharieni SLR MD

From the classic treatment position to the setting for massages - as a treatment couch, the Gharieni SLR is multifunctional. Equipped with four actuators, you can electrically adjust height, back, seat angle and leg section via a hand control and also store four memory positions. Flexible working is also made possible by the small width of the upper back section. Thanks to its mechanically extendable castors, the Gharieni SLR is also easy to move. The couch has a low entry height of only 58cm; and the seamless imitation leather upholstery made of one piece offers your customers optimum comfort.

The base of the Gharieni SLR is available in titanium look with stainless steel elements. Equipped without armrests as standard, this couch can optionally be extended with various exchangeable and removable armrest variants.

Features:

- Small back width for flexible working
- Height, back, seat inclination and leg section electrically adjustable via hand switch
- Four memory positions can be stored
- Various removable armrest variants can be used as an option
- Titanium-look base with stainless steel elements
- Low entry
- Seamless artificial leather upholstery
- Standard upholstery colour: white. Other colours from our colour collection for an extra charge.
- Mechanically extendable castors

PU armrests	3,--

Without armrests

Standard armrests

PU armrests

- Entry height with inclined seat: 48 cm
- Height: 58–85 cm
- Length: 188–210 cm
- Width without armrests: 64 cm
- Lifting capacity: 200 kg
- Load capacity of lying surface: approx. 250 kg

SLR MD

Suitably adjustable

The Gharieni SLR can be adjusted according to your needs and those of your customers. In terms of height, the bed can be set to 58-85 cm. The seat can be inclined by 12°. The backrest can be tilted in relation to the seat from 0 to 75° and the leg section from

0 to -80°. The headrest as well as the footrest can be extended by 10 cm. The armrests can be swiveled back and folded down for massage treatments.

Variable PU armrests

The optional PU armrests, thanks to their special design, allow for use at variable heights. They can be effortlessly removed and used on opposite sides. This results in a high or low position for resting the arms. In addition, you can also remove the armrests altogether if the treatment requires it.

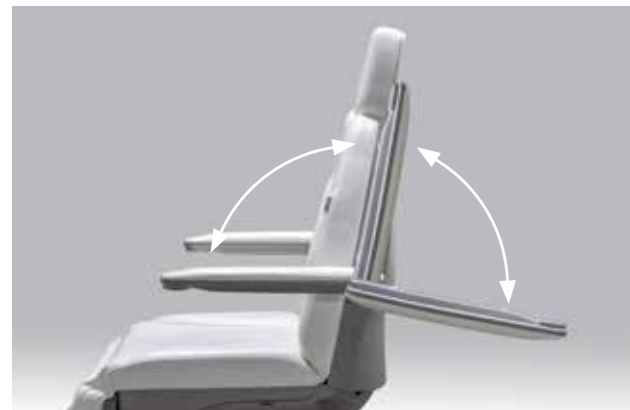

Options (more info. after page 14)

	Airback electrical: electro-pneumatic lordosis support system of the upholstery	,-,-
	Color upholstery: max. 2 different colors	,-,-
	Synthetic leather standard, per color	,-,-
	Synthetic leather Ferrari Stamskin Top, per color	,-,-
	Multifunctional headrest:

MLK Physio

Gharieni MLK Physio

The Gharieni MLK Physio is our specialist for physiotherapeutic use. The special feature of this massage table is the electrically elevatable center section to relieve the middle and lower back area. The centre of the two-part lying surface can be raised at an angle of up to 28°. The height of the Gharieni MLK-Physio can also be electrically adjusted. The headrest can be tilted pneumatically by $\pm 30^\circ$ using a gas pressure spring. The Gharieni MLK Physio is equipped with armrests that can be lowered for treatments in the prone position. The base is available in both white (standard) and titanium optics (optional).

Features:

- Electrical height adjustment
- electrical adjustment of the elevated center position
- Lowerable armrests
- Head section with segmented face cradle inclinable $\pm 30^\circ$
- White synthetic leather upholstery, optional in other colors

.

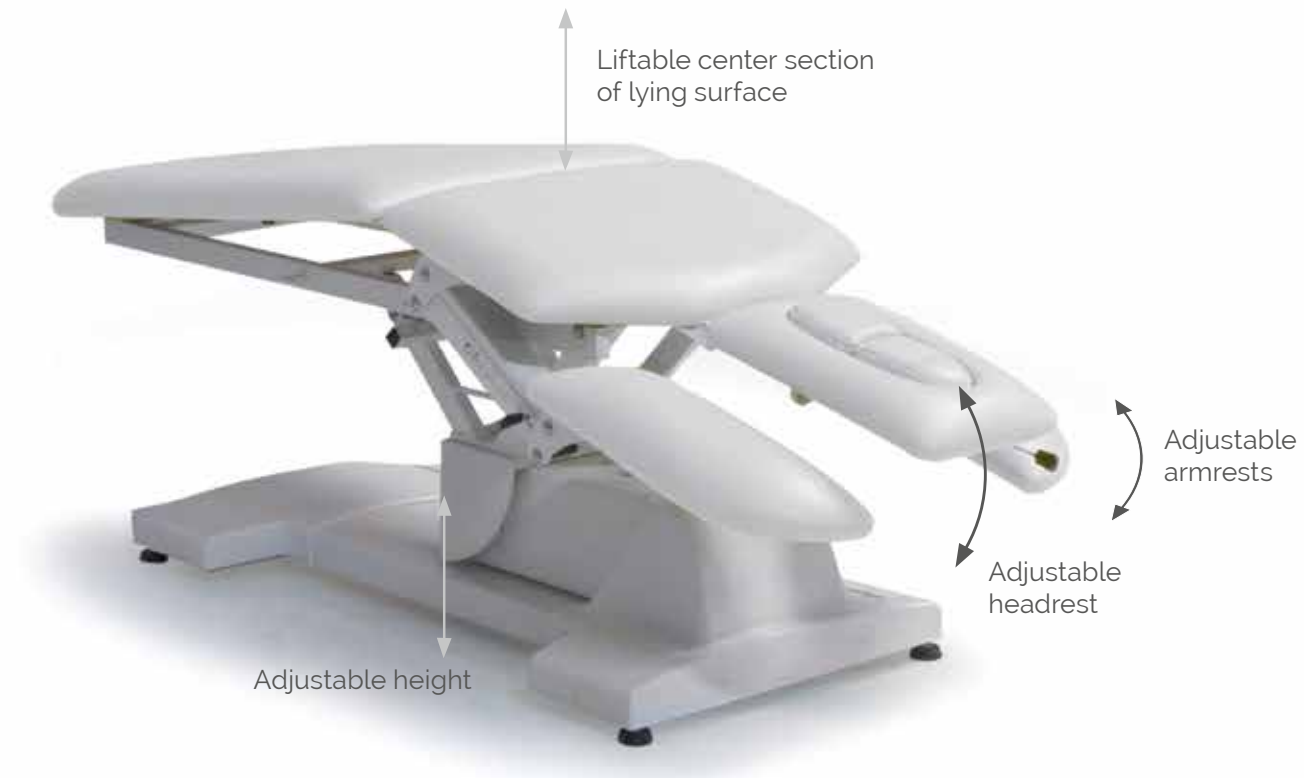

MLK Physio

2-actuator (height, center section)

- Height: 61-91 cm
- Length: 196 cm
- Width: 70 cm
- Lifting capacity: 200 kg
- Load capacity of lying surface: 250 kg

MLK Physio

The massage specialist

The massage table Gharieni MLK Physio is electrically adjustable in its height of 61-91 cm, its head rest can be tilted $\pm 30^\circ$ by means of a gas pressure spring. It is also equipped with lo-

werable armrests. In addition, the Gharieni MLK Physio also has a segmented lying surface for setting an elevated center position..

For prone treatments

The Gharieni MLK Physio is equipped with lowerable armrests and a downwards and upwards tilting headrest with face cradle. This makes it suitable for all prone treatments..

Special elevated center position

To provide relief for your customer's lumbar spine area, the table surface can be brought into an elevated center position by an actuator on the Gharieni MLK Physio.

Treatment Beds Accessories

Upholstery Covers

With the right covers your treatment bed will always be well protected against different types of stresses and strains. The table-specific covers are an exact match to the individual upholstery segments. With their integrated elastics, the parts of the terrycloth stay exactly where they belong, thus having no effect on the functioning of the bed.

Thanks to the high-quality material, machine washing up to 60° C is possible and therefore hygienic cleaning is possible. Our covers are available in three different colors: White, choco, and macchiato.

It is best to order the right cover directly when you buy your table. Our team would be happy to help you decide!

Dentalax Neck Rest

This little accessory supports the neck and helps to stabilize the head. This creates a more comfortable table experience while relieving the neck vertebra. We recommend the Dentalax for each of our treatment tables as an optimal supplement for the best lying comfort and an increase in treatment ergonomics. The neck rest is available to match the upholstery color of the table.

Dentalax with PU, white	7,-
Dentalax in PU, color	7,-
Dentalax with synthetic leather, white	7,-
Dentalax with synthetic leather, in standard colors	7,-
Dentalax with synthetic leather, in Stamskin colors	7,-

Roll Holder Including Paper Roll

The optional paper roller provides you with a practical, disposable protection for your table. This can easily be attached to the bed. As needed, the 50 cm wide paper is unrolled and pulled over the lying surface. After use tear it off at the perforation line and discard. A neat thing!

Roll holder including 1 paper roll, Art. 42064	-,--
Sanitary paper roll, 50 x 0.5 m, Art. 42065, up to 8 pieces, ea.	-,--
Sanitary paper roll, 50 x 0.5 m, Art. 42065, 9 pieces, ea.	-,--

Foot Protective Cover

To protect the table areas at the foot end, we offer a suitable protective cover made of robust, transparent PVC for all tables. It can be securely fixed to the upholstery via Velcro.

Protective cover	-,--
------------------	------

Manicure Bowl

Practical manicure accessories: This drip tray can be easily attached to the armrests of most Gharieni tables (with the exception of double-upholstered and PU armrests).

PediSpa Square

Extremely flexible

The PediSpa Square has a variety of adjustment options that make a treatment comfortable:

In addition to the headrest which swivels forward by 25°, the backrest can be tilted back by up to 75°. The seat is electrically height adjustable from 63-99 cm, tiltable by 14°, and can be mo-

ved 17 cm forward and backward. The footrest can also be easily adjusted at the touch of a button by up to 21 cm in height. The swivel function of the seat ensures easy access – 90° to both the left and right.

Removable headrest

The PediSpa Square is also available with a removable headrest. This equipment version is recommended for all hair treatments.

Manicure bowl + folding tray

Practical options for manicure: The fold-out trays integrated into the armrests, as well as the flexible manicure bowl, make hand and nail care on PediSpa Square child's play.

PediSpa Compact

Gharieni PediSpa Compact

With our PediSpa models, you can not only work perfectly professionally, but the foot bath also becomes a special wellness experience. Because these treatment tables offer exceptionally comfortable seating. The space saver among the PediSpas is the PediSpa Compact, which is permanently installed on the floor and has an integrated water inlet and outlet as well as a pull-out hand shower. Its basin is covered by the frame as soon as the seat is pushed forward. In addition, the little step on the front can be pulled out. Featuring a non-slip surface, customers can comfortably and safely be seated and also "descend" back down again. In addition, the PediSpa Compact is available with two armrests: standard with low armrests or optionally with high armrests, each of which can be equipped with an integrated folding tray.

Features:

- Two-part base
- Seating area completely movable to the rear
- Foot basin made of high quality Corian® securely installed on the floor
- When the seat is pushed forward, the basin is covered by the frame
- Compact construction
- Adjustable backrest
- Two possible headrest versions: removable (option) **or** inclina-ble (standard, included in the price)
- Height-adjustable footrest
- Upholstery made from synthetic leather
- Standard upholstery color: White. Other colors from our color collection for an additional charge
- Basin with pull-out hand shower, integrated water inlet, and drain
- Optionally with Pipeless Massage
- If there is no connection to the ground, the installation of a drainage pump is possible
- Optionally with a folding tray integrated in the armrest
- Retractable, non-slip step on the front

- Base length (retracted): approx. 80 cm
- Base length (retracted): approx. 150 cm
- Overall width including armrests: approx. 86 cm
- Base width: approx. 80 cm

PediSpa Compact

Pipeless Massage Funktion	7,--

PediSpa Compact

Practical in every respect

With this PediSpa, the base and seat can be pushed over the foot basin to save space. The pull-out step makes it easy for customers to take their seats and descend again; and the headrest, which can be tilted forwards by 25°, offers perfect sitting comfort.

The footrest, which can be adjusted up to 21 cm in height, allows for ergonomic working during pedicures. Thanks to the backrest, which can be tilted backwards by up to 75°, the PediSpa Compact is also perfect for use with cosmetic treatments.

Space-saving construction

This foot bath does not take up much space, because by simply moving the seat forward it is covered by the table base. In addition, a pull-out step is integrated into its front.

Removable headrest

The PediSpa Compact is also available with a inclinable headrest, in addition to a removable/retractable headrest. This equipment version is recommended for all hair treatments.

Options (more info. after page 16)

Color upholstery: max. 2 different colors possible
Synthetic leather standard, per color
Synthetic leather Ferrari Stamskin Top, per color

Manicure bowl + folding tray

Optionally available: The fold-out trays integrated into the armrests, as well as the flexible manicure bowl, make hand and nail care on PediSpa Compact child's play.

Height-adjustable footrest

Simply manually adjust the footrest to the desired height and you'll be working ergonomically in no time!

PediSpa Curve

Gharieni PediSpa Curve

This PediSpa model features an impressive dynamic and elegant design, as well as high-quality workmanship. The height-adjustable foot section and the tiltable and removable head section are easy to handle and also make work easier. Made from the best materials, the PediSpa Curve is a real highlight for every spa, whether in the Basic or Comfort equipment version. With optional extras such as heated seats, pipeless foot massage, as well as auto-filling, the PediSpa Curve Comfort meets your customers' highest demands for exceptional treatments.

Features:

PediSpa Curve Basic

- Base partly made from high-quality Corian®
- Compact construction
- Height-adjustable footrest
- Adjustable backrest
- Headrest inclinable and removable
- Fold-out armrests removable
- Upholstery made from synthetic leather
- Optionally with heating

PediSpa Curve

Set-up on request

The seat, which can be moved forwards and backwards a total of approx. 17 cm and the forward-inclinable head section, ensure perfect seating comfort. In addition, the head section can also be removed. This way the PediSpa Curve is perfect for use with

all hair treatments. The armrests swivel to the rear and can also be removed; The backrest can be tilted back by up to 75° – ideal for cosmetic treatments.

Easy-to-use fittings

The elegantly designed fittings make it easy to regulate the water temperature and divert the flow of water to the shower head.

High-end wood decor

For an extraordinarily elegant look: Choose the side panel of the base in one of our numerous fine wood decors.

Gharieni K8 Sideboards

The K8 series provides aesthetic design for your treatment cubicle; because the elements of this modular system are enclosed by a joint-free frame. According to your needs and the size of your workspace, the basic frame module is available in four versions: for one, two, three, or four individually assembled built-in modules in a width of 107 to 207 cm. With the built-in elements – a drawer, cabinet, and floor unit module – you can also choose according to your needs.

Features:

- In four widths: up to four modules
- Individually assembled built-in modules
- Choose from various wood and color decors
- Also as a washbasin cabinet version
- Additional attachment basin possible
- Optionally with LED lighting

Kg washbasin cabinet

With three compartments

7,--

Kg Cosmetic Trolley

On castors

7,--

Gharieni Kg Furniture series

The flexible Kg furniture series meets the highest aesthetic and functional requirements. The Kg cosmetics trolley offers four spacious drawers and thus enough space for your practical work. The modern tip-on technology facilitates the use of the trolley: With light pressure, the drawers slide out gently and quietly. The elegant handle and smooth-running castors make it easy to slide the trolley into the needed position.

The exclusive Kg laundry cart offers the ideal solution for dirty laundry. Used towels, covers, and other textiles disappear immediately through the opening at the front. Like the cosmetics trolley, the position of the laundry trolley can also be adjusted by smooth-running castors.

The Kg washbasin cabinet is just as elegant as it is practical. Divided into three areas, there's plenty of space for equipment, towels, used textiles, and more. On request, an attachment washbasin can be integrated.

And for just the right look, choose from our wood and color decors in matt or high gloss!

Kg washbasin cabinet features:

- Individually assembled
- Three sections for towels, various devices, used laundry, and much more.
- Additional attachment basin possible

Kg Cosmetic Trolley features:

- Four spacious drawers
- Gentle sliding out of the drawers via "Tip-On-Automatic"
- Elegant handle for moving the furniture
- Rubber castors for pushing

Kg Laundry Trolley features:

- Easy disposal of used laundry through wide insertion slot
- Laundry easily removable via large front flap
- Drawer with Tip-On-Technology
- Rubber castors for pushing

Attachment washbasin

The attachment washbasin is optionally available and makes the washbasin cabinet an optimally practical unit. For the current collection of attachment washbasins, ask our staff.

Compartment for dirty laundry

Towels, covers, and other textiles can be stowed immediately after use via the large slot of this fold-out compartment. This way your workspace will always look tidy even during treatment.

Hot Cabi

For a clean look in your workspace: Just let your Hot Cabi "disappear" into the Kg washbasin cabinet! Find out about our range of matching Hot Cabis in our "Medical, Feet & Care" catalog.

K10 Furniture series

Gharieni K10 Sideboards

The K10 furniture series is the innovative development of the successful K9 series. As a modular system with a frame that can include up to four built-in modules, the K10 series offers perfect, aesthetic organization for your workspace. According to your needs, you can assemble your K10 Sideboard from the following modules:

a drawer, cabinet, and floor unit module. The Spa Trolley HST treatment unit K10 module, which can be perfectly integrated, is particularly practical. This module on noiseless lightweight castors can be easily pulled out for treatment and then pushed back into the unit.

Features:

- In three versions: with two, three, or four modules
- Individually assembled built-in modules
- Choose from various wood and color decors
- Also as a washbasin cabinet version
- Additional attachment basin possible

Podosystem Series

EasyStore Drawer Module

Including 4 drawer elements

Additional drawer element

EasyStore Shelf Module

Including 4 shelves

Gharieni EasyStore Series

This elegantly designed furniture series ensures that your workspace is always tidy; and the special thing about it: The mobile cabinet elements can be equipped according to your needs. This means that you can choose from up to five drawer elements in the drawer module and use the shelves individually for the shelf module.

Thanks to their lightweight castors, the EasyStore modules can be used as mobile stand-alone furniture. If necessary, you can also combine them into a row of furniture. Available in various decors, the practical furniture can also be perfectly integrated into any environment.

Features:

- Mobile cabinet elements
- Use as mobile stand-alone furniture or connected to a row of furniture
- Flexible shelves in the shelf module
- Number of drawer elements (max. five) selectable for the drawer module
- Available in different decors
- Lightweight castors

Accessories

Magnifying lamp adapter, integrated, Art. 41812

-,--

Magnifying lamp adapter, side assembly, Art. 41804

-,--

- Height: 99 cm (with 4 drawers)
- Width: 40 cm
- Depth: 57 cm

Modular construction

The mobile cabinet elements can be equipped with up to five drawer modules or with flexible shelves. In addition, the drawer and shelf modules can be put together to form a furniture row.

Enclosed storage area

The elegant metal edge of the shelf ensures that your products are secure.

Podosystem Series

Hybrid Airspray Podo Module
incl. Air-Spray combination device

Gharieni Hybrid Airspray Podo Module

The "Hybrid AirSpray Podo Module" makes particularly practical work possible. This is because two drill technologies are combined here; on the one hand the spray function with a bright LED light, and on the other the extremely quiet vacuum function. All this is fully integrated into an exclusive piece of furniture from our Podosystem series.

This has a spacious pull-out shelf with three flexible racks and a glass door.

The Hybrid Airspray Podo module can be used as solitaire furniture thanks to its smooth-running castors. If required, you can also combine it with other Podo system modules to create a furniture line. Available in various decors, the practical furniture can also be perfectly integrated into any interior.

Features:

- Two devices in one
- Spray and vacuum technology combined
- Spray function with practical LED light
- Extremely quiet vacuum function
- Speed: max. 40,000 rpm (both handpieces)
- Speed adjustable via foot pedal
- Three individual settings can be stored
- Brushless micromotors maintenance-free
- Digital control panel
- Handpieces with operating switch
- Smooth running castors
- Available in different decors
- Perfectly integrable into our Podosystem series

Accessories

Magnifying lamp adapter, integrated, Art. 41812

Magnifying lamp adapter, for lateral mounting, Art. 41804

- Height: 99 cm
- Width: 40 cm
- Depth: 57 cm

Fully integrated spray/vacuum unit

The Alpha Hybrid AirSpray Pro 40d is completely integrated into the furniture. To refill the water tank and change the filter, it can be simply pulled out like a drawer.

Pull-out shelves

The integrated pull-out compartment with three flexible shelves offers plenty of storage space. A glass door protects the area from dust and other dirt.

MLX Trolley series

MLX Trolley versions

No matter for what purpose: Choose your suitable MLX Trolley from our offering!

Large (Height: approx. 99 cm)

Medium (Height: approx. 88 cm)

Small (Height: approx. 77 cm)

Mini (Height: approx. 55 cm)

Gharieni MLX Trolley

Do you love to work when things are "tidied up" and are organization and clarity a must for you in your workspace? Then the multifunctional MLX Trolley is just right for you! With the multifunctional trolley with its variety of versions, you're guaranteed to find the right model.

Whether you opt for a small, medium, or large Trolley, combine low and high Tip-On drawers, as it best suits you. Practical, too: With the all-round handle and the high-quality lightweight castors, the trolley can be moved effortlessly. In addition, it can be equipped with a magnifying lamp holder on request. Also: Thanks to the possibility of choosing from a variety of matte and glossy color and wood decors, the trolley is a perfect fit in every workspace!

Features:

- Multifunctional trolley
- Combination of high and low Tip-On drawers
- All-round handle
- Choose from a large variety of versions and designs
- High-quality castors
- Optionally with magnifying lamp holder

Accessories

Tray attachment	,-

Side storage compartments

For practical working: Reachable from both sides, the side storage compartments offer quick access. With the Display Trolley Plus, the storage compartments can also be closed with a flap.

Lighting display

For optimal product presentation and a sophisticated appearance, the base plate can be equipped with lighting.

Tip On

A light press is all it takes: Thanks to the Tip-On technology, the drawers open effortlessly and quietly.

MLX Trolley Series

MLX Podo Trolley	
Without device	-,--
Compartment with UV light	-,--

Gharieni MLX Podo Trolley

Easy, clean working is offered by the flexible Gharieni MLX Podo Trolley with smooth running casters. The upper compartment contains two pull-out trays for a pedicure device and preparations. The side-mounted holder for the handpiece makes work easier, and the optional UV compartment integrated in the middle drawer enables germ-reduced storage of instruments. Its three drawers can be opened with light pressure using tip-on technology for easy handling. The Gharieni MLX Podo Trolley is available in various decors and can thus be perfectly integrated into any ambience.

Features:

- with pull-out tray for pedicure equipment
- extendable tray with metal basket for bottles
- lateral holder for handpiece
- three drawers with tip-on technology
- optional UV drawer
- metal rail for easy movement of the trolley
- optional top tray available

Pull-out tray

The Gharieni GL60 UV has a pull-out shelf to make your equipment easier to access.

Integrated UV compartment

The integrated UV compartment enables sterile storage of your instruments. The UV light activates automatically when you close the drawer.

Large space available

With three drawers, one of which is equipped with UV light, the Gharieni GL60 UV offers sufficient space for all the equipment you need for foot care.

Various decors

As an option, the trolleys can be equipped with various wood or colour decors. Two-colour combinations are also possible. The Gharieni GL60 UV is available in wenge or white as standard.

MO Trolley

MO Trolley

Including 4 insert baskets

Gharieni MO Trolley

Our MO Trolley provides clear design and lots of storage space with its spacious drawer and the large storage baskets. Thanks to its invisible castors, the Trolley can be positioned anywhere it is needed. With its different wood and color decors, it not only fits into any ambience, but thanks to its design, also perfectly matches our MO1 spa tables.

Features:

- Mobile trolley
- Compact, low construction
- With a spacious drawer
- Pull-out shelf for devices or preparations
- Drawers with soft-close technology
- Sturdy metal baskets for secure storage
- Available in different decors
- Lightweight, invisible castors

Accessories

- Height: 68 cm
- Width: 61 cm
- Depth: 46 cm

Stable storage baskets

The aluminum baskets specially made for the MO Trolley ensure safe storage; Rubber feet effectively prevent slipping. When not in use and during cleaning, the shelves can be easily removed.

Gently closing drawers

The spacious drawers offer plenty of space for your work instruments and equipment. Also: Thanks to their Soft-close technology, the drawer and pull-out shelf close quietly and gently.

Square Trolley

Square Trolley

Complete

,-,-

Gharieni Square Trolley

This mobile preparation trolley is the practical helper for all your treatments. The side compartments and two drawers in the front area allow you to store everything you need. An extendable tray in the front provides a useful storage space; The folding compartment stores used materials and the side handles can be used as towel holders. Equipped with castors, the Trolley can effortlessly and quietly move to any desired place. And if the Square Trolley is to be used with a magnifying lamp, it can be optionally equipped with a magnifying lamp holder.

Features:

- Mobile preparation trolley
- Two drawers in the front area
- Drawers with Tip-On-Technology
- Side compartments
- Fold-out compartment for waste
- Handles on the sides that can be used as towel holders
- Pull-out tray
- Available in different decors
- On castors
- Optionally with magnifying lamp holder

Accessories

Magnifying lamp adapter, integrated, Art. 41812

-,--

Magnifying lamp adapter, side assembly, Art. 41804

-,--

- Height: approx. 82 cm
- Width (without handle): 45 cm
- Width (including handle): 54 cm
- Depth: 45 cm

Pull-out tray

The extendable tray offers a convenient storage area for all treatments.

Drawer with Tip-On-Technology

The drawers can be easily opened with their Tip-On-Technology with the touch of a finger.

Integrated fold-out compartment

Used materials can be disposed of immediately in the folding compartment in the front.

Side storage compartments

The side compartments accessible from both sides provide additional practical storage space.

CL Trolley

CL Trolley
With 3 drawers

Gharieni CL Trolley

A visual highlight for your workspace and a practical helper at the same time – this is the Gharieni CL Trolley mobile preparation trolley. Extraordinarily designed in its shape and in a modern semi-metal look, it offers everything that makes work simple: There is plenty of room for your products in the compartments of the semicircular front; and three rear-facing drawers guarantee clarity and quick access to everything you need for your treatments. You can also dispense individual facial tissues very practically from a special device. Equipped with a railing and pleasantly quiet lightweight castors, the preparation trolley can be easily transported wherever you need it. And of course you can choose "your" Gharieni CL Trolley from a variety of decors to match your workspace equipment.

Features:

- Mobile preparation trolley in modern semi-metal look
- Recessed storage surface for preparations above
- Device for individually dispensing facial tissues
- Storage compartments on the front side
- Three drawers in the rear area, arranged in a terrace pattern
- Railing
- Available in different decors
- With lightweight castors

Accessories

Magnifying lamp adapter, integrated, Art. 41812

Magnifying lamp adapter, side assembly, Art. 41804

- Height: approx. 78 cm
- Width: approx. 44 cm
- Depth: approx. 67 cm

Recessed storage surface

In the recessed storage surface, products can be securely set aside during your treatments. The built-in facial tissue dispenser is also practical.

Clear & handy

Thanks to the three terraced drawers on the back of the Gharieni CL Trolley, you can store everything clearly and within easy reach.

Enough space

The two compartments in the semi-circular front can be used for a supply of products.

Cube Trolley Series

Cube Square Trolley

With castors	7,--
Without castors	7,--
Base in chrome, additional charge	7,--

Gharieni Cube Square

The Gharieni Cube Square Trolley, with its modern, simple design, is available in three versions: a large drawer and an internal storage compartment, with two drawers, or a drawer and a storage compartment. Particularly practical: The smaller drawers can be pulled out on both sides. The trolley is available in white, wenge, or optionally also in two colors; and the square metal base can be (optionally) selected in white, titanium, black, or chrome. For a look that fits your workspace, you can also configure the Gharieni Cube Square into one of our numerous other decors. Equipped with lightweight castors, the trolley is also perfectly mobile.

Features:

- Modern, clear design
- Wood decor in white and wenge
- Optional two-tone
- High-end metal-wood combination
- Square metal base in white, titanium, or black-brown
- Chrome base optional
- Additional decor versions possible
- Available in three versions: With a large drawer and internal storage compartment, with two drawers, or with a drawer and a storage compartment
- Small drawers can be pulled out on both sides
- Brakable lightweight castors

Accessories

Magnifying lamp adapter, integrated, Art. 41812

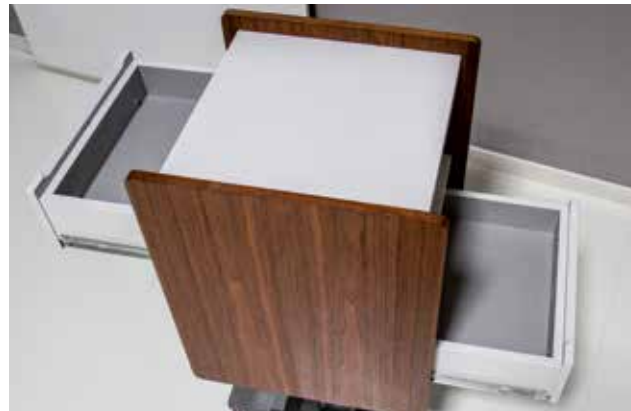

-,--

Magnifying lamp adapter, side assembly, Art. 41804

-,--

- Height: 78,5 cm
- Width: 43,6 cm
- Depth: 46 cm

Drawers can be pulled out on both sides

A clever detail on the Gharieni Cube Trolley: the drawers can be pulled out on both sides. This way you have quick access to your work instruments from all sides.

Storage compartment for devices

In addition to a drawer, the Gharieni Cube Trolley can also be configured with a storage compartment. Equipped with a pedicure device, it becomes the perfect trolley for foot care.

Optional: Chrome base

In addition to the standard colors white, black-brown, and titanium, the base of the Gharieni Cube Trolleys is also available in elegant chrome.

Modern design

Its wood-paint-metal look makes the Gharieni Cube Square Trolley a visual highlight. Of course, it can also be configured in a monochrome design. Ask about our current wood decor palette!

Cube Trolley Series

Cube Select Trolley

With castors	7,--
Without castors	7,--
UV drawer, additional charge	7,--
Base in chrome, additional charge	7,--

Gharieni Cube Select

With the Gharieni Cube Select Trolley, you can choose between two equipment options: a large-capacity drawer or two medium-sized drawers. In the lightweight castor version, the Gharieni Cube Select can be moved anywhere you need it.

With its high-end metal-wood combination – a decor in white or wenge and its round metal base in white, titanium, black-brown, or optionally in chrome – this practical trolley looks very sophisticated. Upon request, it is also available in other decor versions.

Features:

- Optionally with a large drawer and two spacious inner surfaces or with two medium-sized drawers
- High-end metal-wood combination
- Wood decor in white or wenge
- Metal base with round column in white, titanium, or black-brown
- Large lightweight castors
- Also without castors
- Optional metal base in chrome available
- Additional decor versions optional

Accessories

Magnifying lamp adapter, integrated, Art. 41812

–,--

Magnifying lamp adapter, side assembly, Art. 41804

–,--

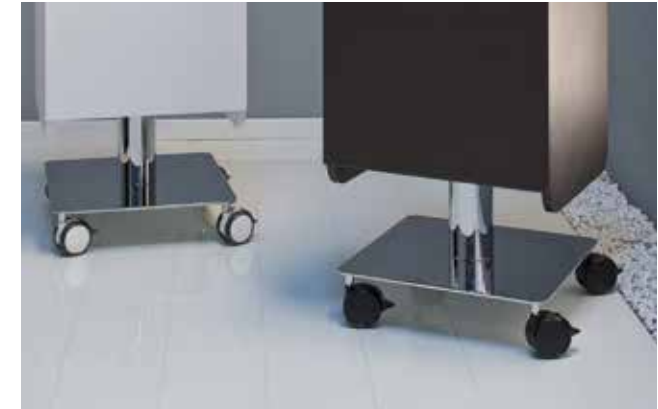

- Height with castors: 74 cm
- Width: 41 cm
- Depth: 43 cm

Integrated UV compartment

The Gharieni Cube Select can optionally be equipped with an integrated UV compartment for low-germ storage of your instruments. The UV light activates automatically when the Gharieni Cube is closed.

Elegant metal base

The metal base with its slim, round column makes the trolley look very light. Available in white, black-brown, titanium, and chrome.

With or without castors

In addition to the large lightweight castors, the Gharieni Cube Trolley can be equipped with a simple stationary stand.

Various drawers

With the Gharieni Cube Select, you can choose between a large-capacity drawer with two spacious inner compartments or two medium-sized drawers.

GlaStyle

GlaStyle	
With 1 tray	7,-
With 2 trays	7,-
With 3 trays	7,-

Gharieni GlaStyle

An equipment trolley with an extraordinary design – that's the Gharieni GlaStyle. The combination of metal and glass and its curved design make it an exceptional helper in your studio. With up to three height-adjustable and swiveling glass tops, it offers you enough storage space for everything you need for your treatments. Also practical are the integrated magnifying lamp holder and the lightweight castors. These allow you to easily move the Gharieni GlaStyle to where you need it. In addition to the number of glass surfaces, you can also choose the color of the base to your liking in white or titanium.

Features:

- Up to three swiveling shelves in glass decor with chrome-plated edging
- Height-adjustable and swiveling glass tops
- Railing can be shortened
- Base in white or titanium
- Magnifying lamp holder
- With brakable lightweight castors

- Height: 89 cm
- Width (closed): 50 cm
- Width (including steamer): 82 cm
- Depth (without handle): 48 cm
- Depth (including handle): 54 cm

Glass surfaces with railing

The glass shelves are equipped with a railing that can be shortened. This allows everything to be stored securely to prevent it from falling.

Color of your choice

You can choose the base of the trolley in white or titanium.

With magnifying lamp

Thanks to the integrated holder, you can also equip the preparation and device trolley with a magnifying lamp.

Easy to move

With its large lightweight castors, the Gharieni GlaStyle is mobile and at the same time stable. In addition, the base of Gharieni GlaStyle offers a practical little waste container.

Stools & Chairs

Stools & Chairs

Not only your customers should be comfortable during the treatment! In order to be able to work comfortably and efficiently, the working chair factor plays a role that is not to be underestimated. Here, the focus is on ergonomics. This includes not only a comfortable seat surface, but also optimum adjustability. Our stools and chairs offer you all these features. Find exactly the right chair to suit you and your work from our wide range of products.

We also don't come up short in terms of looks. Optionally, you can configure our working chairs, in addition to the standard white, in different colors to suit your personal ambience. In addition, with our four castor base versions, we offer optimum possibilities to configure your personal working chair. Optional extras like our Floating feature and Airback-Technology round out our offering.

Features:

- Stools and chairs come standard with white upholstery (except PU stools) and black base
- Rotatable seat
- Rubber castors with Roll-Stop function
- Comfortable upholstery
- Washable and durable cover
- Synthetic leather cover optional in various colors from the current Gharieni or Ferrari Stamskin color collection (see catalog cover)
- Pneumatic height adjustment
- 5-caster safety base
- Four different castor base versions

Chair/Stool "Anatomical saddle-seat"

Our specialists when it comes to ergonomics are the anatomical saddle-seat stools and chairs. Thanks to their specially curved seat design in the Large and Small versions, the saddle-shaped seats ensure optimal pressure distribution in the buttock-area while relieving the strain on the thighs. The "For Men" model, with its recess in the front part of the seat, also caters to the special ergonomic needs of men.

The "floating" version also offers a seat that swings in all directions to maintain the mobility of the pelvis and promote the flexibility of the discs.

All models have the obligatory height adjustment and the five-caster safety base. The chair model is also equipped with an adjustable backrest and a tilting seat.

Features:

- Anatomically-shaped saddle-seat
- Pneumatic height adjustment
- Rotating saddle-seat
- Comfortable upholstery
- Chair version with inclinable seat to relieve pressure on the thighs
- "Air" chair version with air chambers to relieve pressure
- Washable and durable cover
- Synthetic leather cover in white
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Optional with floating equipment: swinging, adaptable to the movement of the seat, in two types of firmness (soft and medium)
- Base in three colors: Black (standard), titanium, or chrome
- Four base versions (see page 127)

Stools & Chairs

Chair/Stool "Saddle-seat"

Our saddle-seat chairs or stools have a specially shaped seat similar to a bicycle. The advantage here: The recesses on the seat minimize the unpleasant pressure of the seat on the thighs. The durable synthetic leather upholstery is available in different colors (see color chart in the cover)

All models have the obligatory height adjustment and the five-castor safety base. The chair model is also equipped with an adjustable backrest as well as a tilting seat.

Features:

- 50-62 cm height adjustment
- Saddle-shaped, flat seat
- Pneumatic height adjustment
- Rotating saddle-seat
- Chair version optionally with inclinable seat to relieve pressure on the thighs
- Comfortable upholstery
- Washable and durable cover
- Synthetic leather cover in white, additional colors optional
- 5-castor safety base
- Rubber castors with Roll-Stop function
- Base in three colors: Black (standard), titanium, or chrome
- Four base versions (see page 127)

Art. 42509 with inclinable seat

"Round" chair/stool

Our round stools and chairs feature comfortable and robust upholstery.

The durable synthetic leather cover is available in different colors (see color chart in the cover)

All models have the obligatory height adjustment and the five-castor safety base. The chair model is also equipped with an adjustable backrest as well as a tilting seat.

Features:

- 50-62 cm height adjustment
- Round, flat seat
- Pneumatic height adjustment
- Rotatable seat
- Chair version optionally with inclinable seat to relieve pressure on the thighs
- Comfortable upholstery
- Washable and durable cover
- Synthetic leather cover in white, additional colors optional
- 5-castor safety base
- Rubber castors with Roll-Stop function
- Base in three colors: Black (standard), titanium, or chrome
- Four base versions (see page 127)

Art. 72101 with Floating-Option

"Oval" chair

With its wider seat and curved, height-adjustable backrest, the chair with oval seat provides comfort. In addition, it can be equipped with the Air-Floating system, which with its air chambers allows the adjustment of the seat upholstery to your personal needs. The optional seat tilt adjustment provides relief for the thighs.

Features:

- Pneumatic height adjustment of 50-63 cm
- Rotating oval seat
- Optionally with inclinable seat to relieve pressure on the thighs
- Washable and durable cover
- Synthetic leather cover in white or color
- Optionally with Air-Floating System (AFS) for more comfort and to avoid pressure points
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Base in three colors: Black (standard), titanium, or chrome)
- Four base versions (see page 127)

"Dental type" chair

With this functional chair, the backrest can also be moved to the left and right while seated and can therefore also be used as an armrest.

The chair is height-adjustable via a lever and has a 5-caster safety base.

Features:

- Pneumatic height adjustment of 50-62 cm
- Round seat and rotating backrest
- Comfortable upholstery and upholstered backrest
- Optional with floating equipment: swinging, adaptable to the movement of the seat, in two types of firmness
- Durable cover in white or color
- 5-caster safety base
- Rubber castors with Roll-Stop function
- Standard with black base, optional in titanium or chrome
- Four base versions (see page 127)

"Small" chair

With its angular shape, the "Small" is one of the classic working chairs. It features enormous versatility: Whether with or without armrests, with or without castors, or as a makeup chair, the "Small" offers the right seating to meet every need.

The standard white seat and backrest can also be chosen in one color from our color chart (see cover).

In addition to the obligatory height adjustment, the makeup chair has a foot rest ring for optimum seating comfort.

Features:

- "Small" without armrests height adjustment: 47-60 cm, "Small" with armrests: 40-53 cm, "Small" makeup chair: 57-83 cm
- Rotating, angular chair
- Optional: inclinable seat to relieve pressure on the thighs
- Comfortable upholstery and backrest
- Washable and durable cover
- Synthetic leather cover in white or color
- Choose from castors or fixed base
- Rubber castors with Roll-Stop function
- Comes standard with a black base, optional in titanium or chrome (depends upon the model)
- Four base versions (see page 127)

Stools & Chairs

"Square" chair

A modern design with clean lines and extremely comfortable – this is the "Square" Chair. Whether as a working chair with and without a backrest or as a makeup chair, the Square offers an exclusive solution for most requirements. The robust, easy-to-clean synthetic leather upholstery is available as standard in white or optionally in other colors from our current color charts (see cover). In addition to the obligatory height adjustment, the makeup chair has a footrest ring for optimum seating comfort.

Features:

- In three chair versions: Working chair with and without armrests or makeup chair
- Pneumatic height adjustment from 47-63 cm (working chair), approx. 57 - 83 cm (makeup chair)
- Rotating, angular chair
- Comfortable upholstery and backrest
- Armrests
- Washable and durable cover
- Synthetic leather cover in white or color
- Optionally with castors or fixed base
- Rubber castors with Roll-Stop function

Professional Case Sets

Alfa Air/Spray Pedicure Drills

Case Sets

Case Set Premium Spray Technology

Ideally equipped for mobile pedicure - our suitcase set provides it. Equipped with a foot care spray device, a work light and a robust case with removable trolley, our mobile set offers you functional and practical equipment for professional foot care at home.

The case set Premium Spray Technology contains:

- Alfa Spray Quantus 40T
- Professional case Quantus incl. Attachment trolley
- LED slimline work lamp

Case Set Premium Spray Technology
Incl. Alfa Spray Quantus 40T

Alfa Spray Quantus 40T

- Integrated intramatic spray guide
- Ergonomically shaped, lightweight handpiece
- 40.000 rpm
- 3 continuously dimmable LED's on the handpiece
- Stand-by switch for all functions on the handpiece
- Brushless handpiece motor
- Touch display
- Memory function (memory for speed & spray intensity)
- Dynamic adjustment of the spraying characteristics by means of software regulation

Alfa Spray Quantus 40T, Art. 33200

- Height: 15,5 cm
- Width: 28,4 cm
- Depth: 26,5 cm

Alfa Spray Quantus 40T

This compact pedicure spray drill has a brushless handpiece motor, a modern touch display and three bright LEDs on the handpiece.

Professional case Quantus

Due to the specially shaped inlay of this robust case, the foot care device has a secure hold. Two integrated sockets and the removable instrument box offer perfect functionality.

Professional Case Quantus

- Lockable
- Device for mounting a lamp
- External power supply and internal double socket
- Removable instrument box with separating element
- Fixation for handpiece
- Empty weight without/with add-on trolley: approx. 4.5 kg/ approx. 5.7 kg

Professional case Quantus, Art. 35229

Attachment trolley for professional suitcases, Art. 35232

- Height without/with attachment trolley: 18 cm/22 cm
- Width: 47 cm
- Depth: 39 cm

Accessories

Foot pedal, speed continuously adjustable, Art. 33144

Attachment trolley for professional suitcases

This space-saving trolley can be quickly attached to the back side of the case for easy transport of the case set.

Foot pedal

With this optional foot pedal you can steplessly regulate the speed of the handpiece motor.

Case Sets

Case Set Premium Vacuum Technology

Do you prefer suction technology not only in your institute? Then our case set Premium Vacuum Technology is exactly the right thing for you! The functional, practical work unit for mobile use is equipped with a vacuum unit, a work lamp and a robust case with detachable trolley. This leaves nothing to be desired in terms of functional and practical work - even in mobile pedicure.

The case set "Premium Vacuum Technology" contains:

- Alfa Air Quantus 50
- Professional case Quantus incl. trolley
- LED slimline work lamp

Case Set Premium Vacuum Technology

incl. Alfa Air Quantus 50

Alfa Air Quantus 50

- From approx. 5,000 to 40,000 rpm.
- LED light handpiece with stand-by switch
- Light intensity adjustable
- LED light ring in the rear handpiece area as indication for stand-by mode
- Large touch display for operating all functions
- Vacuum filter control system
- Combined memory functions (vacuum and speed)
- Continuously variable speed regulation with right/left rotation
- Smooth, vibration-free operation
- Vacuum turbine power, brushless: 50 W, max. 52 dBA
- Dust bag size: approx. 296 ccm
- Device weight: approx. 2.8 kg
- Weight of handpiece: approx. 110 g

Alfa Air Quantus 50, Art. 33195

- Height: 14 cm
- Width: 28,4 cm

Art. 33190

Alfa Air Quantus

A quantum leap in vacuum technology.

Quiet

The appliance is one of the quietest ones (only 52dBA) on the pedicure market. You have to really listen to find out whether the appliance is operating or not.

Strong

Operating with brushless micro actuators, the appliance provides 5,000 to 30,000 resp. 40,000 rpm optimum torques. No „slipping“ of the milling, no „sticking“ of the micro motor even at low speeds with a bigger milling diameter.

Moreover, the brushless suction motor provides an efficient suction capacity and a long service life.

Light

Due to its revolutionary suction technology, the appliance is lightweight as it is not equipped with traditional heavy suction turbines. This provides the technician with better working tools for mobile pedicures and a reduced workload.

- Height: 14 cm
- Width: 28,4 cm
- Depth: 26,5 cm

Alfa Air Quantus 50

- From approx. 5,000 to 40,000 rpm.

SkinAnalyser PC 35

USB-camera with polarizing filters for pictures with and without reflexion of the skin surface. Images of the skin texture and the pigmentation & blood circulation are suited for viewing on your pc-monitor. The projected image can be frozen. Projection and evaluation in the CSI-Software:

- Desquamation (dehydrated skin) with Corneofix®
- Sebum production with Sebuxif®
- Pigmentation spots
- Skin aging/sun damage
- Winkles & pores
- Skin impurities (erythema, acne, blackheads etc.)
- Hair structure, scales, condition of the scalp
- And numerous other applications.

Technical data:

- Interface/power supply: USB
- Cable length 1.5 m;
- Light: 2 x 8 white light LEDs
- Visible window: 10 x 8 mm; resolution: 1280 x 1024.
- Filter: 2 polarizing filters, 1 is switchable
- Camera key for changing the polarizing filters and freezing the image.

(Subject to technical modifications)

Art. 29000, ohne PC

- Height: 5,5 cm
- Width: 5,5 cm
- Depth: 12 cm

SkinAnalyser for connection to a PC or Tablet via USB (not included)

AluStyle

Based on the Rotary design of the AluVap, the devices from our treatment units are also available individually in robust aluminum housing. With their non-slip base and compact design, the AluStyle devices fit on almost all furniture items and equipment trolleys.

Features

- Robust aluminum housing
- Continuous adjustment, partly with illuminated display
- Exclusive lamp elements
- Exclusive Rotary design

Peeling AluStyle

- Including a soft 20 mm and 45 mm brush
- Including a hard 45 mm brush
- Sponge holder including ten small sponges

Vac/Spray AluStyle

- Including one round, flat, and curved ventouse and a large and small suction cup
- With two spray bottles and hose set

High-frequency AluStyle

- Including one 20 mm and 45 mm round electrode, one neck electrode, and one indirect electrode

Iono AluStyle

- Including one hand and two roller electrodes

Persian Treasure

Persian blue salt is one of the rarest rock salts on earth and is therefore particularly precious. The crystals of the salt shimmer in harmonising, relaxing shades of blue - from delicate aquamarine to dark sapphire blue.

The "colour of the sky" is also said to have other beneficial effects. Blue is said to have a mental and physical balancing effect, calming and regenerating. The released ions of the salt also have a positive effect on the respiratory tract. When mixed with natural alpha quartz sand, Persian blue salt gives all treatments a particularly noble and exclusive touch.

Blue salt standard quartz	,-,-
Blue salt Golden Rain or Gold	,-,-
Blue salt Solid Ocean	,-,-

Himalayan Touch

This innovative mixture of quartz sand and Himalayan rock salt brings the beneficial microclimate of mountains, coasts and forests into your treatment room! The steplessly adjustable heating of the quartz and salt mixture release the ions of the salt. The ionized air increases the oxygen uptake during breathing. The positive effects are:

- General refreshment and vitalization
- Physical relief and relaxation
- Mental reassurance
- Stimulation of the metabolism
- Stimulation of the immune system

Himalayan salt standard quartz	,-,-
Himalayan salt Golden Rain or Gold	,-,-
Himalayan salt Solid Ocean	,-,-

Baltic Sunset

The mixture of quartz sand and high-quality Baltic amber uses the beneficial power of "The Gold of the Baltic Sea". The following effects are attributed to amber, also called Stone Of Security, Stone Of Trust or Stone Of Wholesomeness.

- Mental harmonization.
- An energizing effect.
- A compensatory effect on the hormone balance.
- Increased vitality.
- Detoxification of the body.
- Anti-inflammatory effects - even on the skin.
- Support of the immune system

This mixture provides extraordinary Signature treatments and is also suitable for Thalasso treatments..

2 pieces, for fixing hot stones under the feet, white, with velcro

Art. 49085

Hot Stones

Hot stone massage: relaxation using volcanic heat.

The black or grey shiny natural basalt stones from the volcanoes of Hawaii - when heated to approx. 55 °C - are characterised by their heat storage capacity. This attribute of the hot stones provides deeply-penetrating and relaxing warmth for the vegetative nervous system as well as for the muscular system. Physical tensions are eliminated, the flow of energy is stimulated and both the circulation and cell metabolism are supported; moreover, waste products are removed. Use the hot stones for chakra treatment, e.g. place the stones on the solar plexus or neck. Furthermore, you can use them for meridian stimulation. hot stones can be combined with fragrant ethereal oils to carry out beneficial stone massages which can be integrated in numerous treatment programmes.

Hot Stone Set

- With 54 basalt stones:
- 12 stones 10-12 cm
 - 18 stones 6-8 cm
 - 16 stones 4-5 cm,
 - 8 stones for toes

Film Waxing

Application without Strips

Two 100% natural formula with shea butter or Monoi de Tahiti for single use. For hair removing no strips are required. Leaves no residue on the skin..

Karité Extra Film Wax

Because of its formula with pure shea butter, it is primarily recommended to all those professionals who prefer the consistency of traditional wax combined with the hygienic benefits of waxing without streaks. Ideally suited for sensitive skin with low pain threshold. Guarantees the highest level of hygiene. Nutrient-rich, creamy consistency with soft and gentle pulling. 500 g bag with beads for faster melting and determination of the desired quantity. Melting point: 39 °C

500 g pearls in bag	Art. 20502	,-
800 g can	Art. 20503	,-

Beauty Depilation Wax

These oil-soluble waxes have been specially produced for hygienic and effective depilation of all skin types. The composition is rich in natural oils and contains titanium dioxide for a moisturizing and smoothing effect. The creamy texture makes the waxes easy to work with and removes residues easily.

Hot Air Sterilizer Titanox

- Temperature indicator
- Safety thermostat
- Timer from 0 to 120 min. with automatic shutdown
- Sterilisation in 60 minutes (also 60 min. total time)
- Rated power: 450 Watt
- Volume: 22 l sterilisation compartment with 3 trays
- 2 control lights
- Internal dimensions W x H x D: 38 x 20 x 30 cm
- External dimensions W x H x D: 56.5 x 41 x 31.5 cm

Art. 63915

Instruments Box

- Adapted for heated air sterilisation, up to 200 °C sterilisable
- Stainless steel
- Dimensions: 18 x 8 x 4 cm

Art. 10315S

Art. 10315S

Melag Air Circulation Steriliser Type 75

In contrast to a hot air steriliser, the air circulation steriliser provides, in addition to the thermal circulation, a mechanical circulation of the air. This provides optimum heat distribution – just like in a bakery oven.

- Only 60 minutes sterilisation time for unpacked instruments by mechanical air circulation
- More storage space for more instruments
- High accuracy temperature control by precise capillary tube regulators
- Delivery incl. 2 trays and tray holder
- Internal dimensions: w: 19.5 cm / h: 7.4 cm / d: 29.5 cm
- External dimensions: w: 31 cm / h: 26 cm / d: 39.5 cm
- Power consumption: 650 W
- Volume: approx. 4 l
- Weight: approx. 12 kg

Art. 63940

Autoklav Melatronic 15 EN+

Approved according to MPG (Medical Devices Act). The Melatronic 15 EN+ autoclave is based on its predecessor, the Melatronic 15 EN. In addition to this model, a drying system has been installed in the new 15 EN+, which meets the latest hygiene requirements. The drying system used here has been a standard feature of larger autoclaves for years and is now also available for Melag's smallest autoclave. This autoclave complies with the European standard EN 13060. MELAflash is a card recorder which ensures the validation of your sterile goods. You can load the stored data onto your PC and thus create a complete record of the sterilisation processes.

Delivery includes 3 trays and MELAflash.

- Internal dimensions: Ø 15 cm / d: 38 cm
- External dimensions: w: 44 cm / h: 33 cm / d: 50 cm
- Power consumption: 1.500 Watt
- Volume: approx. 7 litre
- Weight: approx. 22 kg

Art. 63945

Sterilization packaging

Sterilising packaging made from a film-paper combination. Suitable for steam sterilisation and lamination of instruments. Tear-resistant, bacteria-proof and easy to open. On a 200 m roll.

7,5 cm x 200 m

Art. 63985

Sterilisation Control Systems

Check your steam steriliser! These test strips will inform you about the capacity of your autoclave. Two separate test windows make the result visible similar to a biological indicator test. Suitable for sterilisation cycles with a temperature of 121 °C/134 °C. Complies with EN 867-1 standard class D as well as ISO 11140-1 class 5. Not suitable for hot air sterilisers. 250 test strips.

Art. 63995

UV-C Sterile Storage Compartment

Device for sterilizing materials, working by UVC. With radiation-absorbent shutter that automatically turns the unit off when opened.
