

A modern hair salon interior. In the foreground, a large, oval-shaped mirror with a silver frame reflects a grey armchair and a potted plant. To the left, several teal-colored hair salon chairs are arranged in a row. A black shelving unit with various hair products is visible in the background. A large window on the left side of the image provides natural light. A vertical garden wall with various green plants and moss is visible on the right side of the image. The floor is made of dark wood.

timeless

1987

After 37 years of a passionate journey of research, Maletti presents STEAMMOON, a unique tool that combines the steam's benefit to the barber treatments as well. Through its use, hydration, detoxification and opening of the skin's pores is obtained.

2024

STEAMMOON

BEARD HYDRATION

The Steamoon vapo barber is the result of Maletti's studies and experience in steam treatment furnishings. It represents a true revolution of the world's shaving, with an advanced technology that will offer an unprecedented experience.

"The application of steam has shown a positive impact on the morphological properties of hair, or even on damaged hair in a major way. In fact, the steam, deeply moisturizes the hair, scalp, skin and the underlying tissue."

prof. Cataldo Arcuri

*Analysis and Studies in collaboration with Perugia
Department of Medicine and Surgery*

The steam application has a significant influence on the use of specific hair treatment products, and this can also be applied to beards and combined to the dedicated cosmetic products. Steam allows the product to deeply penetrate, improving the health and softness of the beard.

Our bodies are made up of a high percentage of water. Approximately 55% of a female body weight is water, in a male this percentage rises to more than 60%, in an infant it reaches 75%. Water is the most important molecule for life. If we consider the health of an individual as a set of properly hydrated organs and tissues, we can conclude that for the hair follicle, hairs and epidermal tissue, real organs, proper hydration is the basis of their health.

2013

SHIRODARA, EVOLUTION.

Shirodara,
Ayurveda collection, 2013
Nilo Spa Design

Conceived and created for Nilo SPA Design in 2013, this marked the beginning of an evolutionary journey to create furniture for special wellness treatments such as Ayurvedic massage. Shirodara, a word that is originated from "shiro," meaning head, and "dhara," the steady flow of an oil or liquid, is a massage that dates back to the ancient tradition of Indian Ayurvedic medicine that is performed through the use of warm oil (or other liquid) that is slowly dripped onto the forehead. It is therefore a massage that can deeply relax our body and mind, eliminating stress, anxiety and giving us a deep state of mental and physical well-being.

2024

"The supine position is undoubtedly the best position for resting, although using a mattress of the best material on the market, it is not sufficient! To ensure complete muscle relaxation, the spinal must remain in a straight natural position. For example, for the patient's care with postural problems, specific pillows must necessarily be used to respect the arcs of the back curvature, paying special attention to the alignment of the C1/C7/T11 vertebrae. Not using pillows or, on the contrary, using poorly sized positioned pillows can cause chronic-postural problems in the long run. Another overlooked fact is that resting in the correct supine position also relaxes the muscles of the rib cage, promoting an oxygen inflow to the entire circulatory system."

Dr. Anna Bassi | AUSL - Reggio Emilia (RE) Italy
