Dear alessandro fans & friends

A shared vision has made the alessandro family unique for 33 years! First-class quality, continuous innovation, new technologies and international style come together under the feathers of the peacock.

Through the development of high-quality textures, patented formulas - "created in Germany" and tailor-made service, alessandro is the number one partner for the nail professional.

Fashion and beauty fans all over the world love the creative and passionate application of the latest trends for their nails. Also current topics, such as sustainability are placing new demands on the beauty industry.

VEGAN has been the word on everyone's lips for some time. And whereas people were still perplexed by the meaning of vegan a few years ago, today almost everyone knows what a vegan lifestyle means.

Vegan is in fact not just a trend, but an attitude towards life. Many of our textures are already VEGAN. In order to protect our environment and oceans, we are already offering many of our textures without microplastics, silicone and mineral oils. Our promise for the future: Even more sustainable ingredients, packaging and product formulas to protect the environment and oceans of this world. In time with alessandro's 33rd birthday and the 10-year anniversary of Striplac we are looking forward to presenting to you our latest product portfolio on the following pages. Alessandro's success story goes on be a part of it or become a part of - we are looking forward to seeing you! A well-known politician said many years ago, "The best way to predict the future is to shapt it.

We are looking forward to go down this path together with you!

Your alessandro Team

NAIL SCULPTING

Professional nail sculpting by professionals for professionals

The extensive alessandro product range offers a large selection on professional products for the perfect nail sculpting and individual requirements. All gel-, acrylic- and colour gel systems are developed by salon professionals for the most modern light units and processing techniques.

All products are certified, controlled, vegan and without animal testing.

BONDING AGENTS

alessandro bonding agents form the base for an uncompromising and strong adhesion of all alessandro sculpting gels. alessandro bonding agents are allrounders, they can be used under any UV/LED-sculpting gel.

8000	BOND
alessandro	STRONG

BOND ULTRA SOFT

Acid-free, light-curing bonding agent that also promises optimum adhesion for soft nails. Very flexible after curing. Minimal sweating layer. Bond Strong provides the base for the uncompromising and strong adhesion of all alessandro sculpting gels. The slightly acidic bonding agent offers ultimate adhesion even for problem nails and solves severe adhesion problems..

01-065 7,5g

01-957 7,5g

PREP & PRIME

PEDI BASE COAT Pedi Base Coat offers the perfect, acid-free base for any light-curing colour pedicures. It provides an optimum, strongly adhering primer, balances out uneven nail surfaces and protects the sensitive nail plate from any discolourations.

Pedi Base Coat cures under UV/LED light and is exclusively suitable for applying to toenails. NEW: Now also with the protective active

ingredient Pirocton Olamine.

01-038 10 ml

01-485 10 ml

nail polish).

6

BOND STRONG BONDING AGENT

BOND ULTRA STRONG BONDING AGENT

Light-curing bonding agent with an acid content of 10%. It is particularly recommended when changing from highly acidic products and solvents and from powder-liquid systems. For moist, oily natural nails with a tendency for lifting.

01-959 7,5 g

Prep & Prime is more than a typical dehydrator. The acid-free ingredients degrease, dehydrate and prime the natural nail and perfectly prepare the nail surface for subsequent products. The dehydrator air dries and no curing is required. The bonding booster strengthens the adhesion of light-curing base coats and bonding agents many times over and can be applied under PROLAQ and under any bonding agent (not suitable under Striplac and

SCULPTING GEL

alessandro UV/LED-Gels offer for every customers request and each nail type the best formulation. Depending on your requirements for a perfect sculpting material you can choose between the consistencies honey-like (self-levelling) and jelly-like (sculptable).

The gel range includes camouflage-, french- and sealing gels.

POLY-ACRYL-GEL

AcryLOVE Polyacrylic Gel combines the best features of acrylic and gel in one product. In terms of technique it is handled like acrylic but does not involve such timeconsuming mixing. It is completely odour-free and right up to curing under UV/LED light, offers an unlimited processing time, without flowing into the nail edges. After curing AcryLOVE offers an ultra-lightweight feel and is also harder than classic gel and more flexible than traditional acrylic.

UREA FOOT POWER POSTER DIN A 1

1 pc.

Treat yourself to a special time-out! Increase your well-being and pamper your hands, nails & feet with an unforgettable mask!

Optimal care properties Valuable ingredients

- · Hygienic individual packaging
- · Easy use
- ·No power consumption

· Short preparation time

- · Pleasant lavender fragrance

- · Apple stem cells · Grape seed oil · White and green tea · Vitamin A, C and E
- · Panthenol

PREPARATION Fasten the tabs on the Spa Sensation Parafin gloves or socks. Position the heat bag in the middle of the box. Pour the contents of the Aroma VapourTM into the heat pocket and close the Spa Sensation Paraffin box.

WARM-UP PHASE While the Paraffin is melting, a pleasant lavender fragrance is diffused. After a maximum of 5 minutes the gloves / socks are ready to use.

APPLICATION After a short cooling period the gloves/ socks can be slipped on your customer. Gently massage the hands or feet while the customer enjoys the nourishing intensive treatment.

PREPARATION

Invert a pair of gloves or socks at the upper flap (transparent strip) over the metal device. Roll up overlength of gloves or socks and place them loosely into the base. Repeat the procedure with the second glove or sock at the opposite side. The paraffin should be pointed directly towards the heating bag.

WARM-UP PHASE

After a short time a little steam in combination with a fresh and pleasant fragrance of lavender will rise from the heating bag. After approx. 6-8 minutes the gloves or socks are ready for use and can be removed.

ESSENTIAL OILS

Essential oils have a beneficial effect on the soul. They can be applied in many simple ways. The scent molecules penetrate via the nose to the olfactory mucosa that is part of the central nervous system. The sense of smell itself is located in the oldest part of the brain, the limbic system. Here, the olfactory stimuli can initiate the distribution of messenger substances which have a pain-relieving effect or generate a feeling of comfort. Endorphins are also distributed. These have a strong pain-relieving effect and lift the mood.

ESSENTIAL OIL LEMON Enjoy a new beginning full of ideas, creativity and inner strength. The fresh, fruity essences have an uplifting, refreshing effect and give you an energy boost. They also strengthen the immune system.

11-770 10ml

alessandro ACADEMY

Education and training – From beginner to professional

The alessandro ACADEMY is one of the most accomplished training centres in nail design worldwide and is known for its high quality standards - this is the case in particular for the well-established education and training of nail stylists.

In cooperation with experienced experts, alessandro has developed a philosophy of holistic, gradual and highly practical training for nail stylists.

The alessandro ACADEMY will support you in every training wish and forms an ideal basis for professional further development or self-employment.

All seminars are carried out in line with the latest knowledge and up-to-date techniques. The alessandro training team comprises highly gualified experts who are committed to their 'craft' with the utmost passion and live and love it every day. Thanks to many years of training experience, they also have the talent of being able to teach technical contents and techniques in a way that is easy to understand. So learn from the masters and benefit from their experiences, which you can fall back on at any time after the training. This will give you support and safety in your everyday working life.

No master has fallen from the sky yet, but we'll make one out of you!

You can find out more about our seminars at www.alessandro-international.com
